Preface

The policy directions of the Government (Both central and State) have intended for better growth of the State through welfare measures. For developmental growth, the policy and programmes of both the centre and State go hand in hand to supplement each other's effort in bringing tangible changes in the socio economic status in the State.

Since beginning of the 12th Five year Plan, Convergence of resources (Technical and financial) was considered to be the key and a new dimension in policy and planning. With increased specialization and sector-wise thrusts in development, the respective line Ministries/departments are issuing guidelines for preparation of sector development plans such as District Health Plan, District Education Plan, District Water and Sanitation Plan, District Agriculture Development Plan, District Rural Road Development Plan, etc., Increasing incidence of the preparation of such plans is causing in the way of preparing horizontal integrated plans. In order to use resources efficiently and involve the local governments actively, vertical planning process needs to be transformed into a horizontal planning process, where local governments and other planning entities work together and plan development together.

The State Government departments in Odisha are implementing various rural development programmes through a set of guidelines and by separate set of administrative and institutional mechanisms. In order to facilitate the horizontal planning process at various local governments' level, the present guidelines of sectors departments needs to be mapped to bring uniformity in planning, sanctioning, release of funds, implementation and monitoring and evaluation of the programmes. Interestingly, all these guidelines stipulate inter programme coordination and convergence. Many of the programmes planned and executed by different ministries/ departments/ agencies have almost similar objectives and targeting the same groups/areas. This plethora of efforts has been resulting in wastage of resources and failure to achieve synergies.

It is to be noted that, in the past, attempts have been made by the departments, officials and institutions to develop convergence planning and implement the programmes. However, these efforts are isolated and sporadic and organized attempts are needed to institutionalize the same. Such initiatives have paved way for the emergence of 'convergence planning' concept to achieve maximum and sustainable benefits (outcomes) to community and the poor from various development programmes. This is possible by pooling human, capital and technical resources.

Closely observing at the Institutional dimension, it can be inferred that the planning wing of the Department are having weak structure due to lack of sector experts in the team. At the same time, the increased budgetary allocation, new flagship programmes, target oriented approach in the programmes have increased expectations from the planners and implementers to meet the desired outcome of convergence planning and implementation. From a planner's point of view, before stepping in to convergence planning, there should be availability of minimum resource base i.e literature pertaining to the Policy and programmes of the Government, the institutional set up to implement such policies/ programmes/ schemes, the need of targeted beneficiaries, the existing resource base to

implement such programmes/ schemes, benchmark to attain quantity and quality of infrastructure and services etc. Lack of such information has lead to ineffective convergence planning and implementation.

In order to provide adequate information to the planners, implementers and beneficiaries of the Government Schemes, the SCSTRTI has attempted to compile the various Central sector, centrally Sponsored and State Government promoted Schemes. A team of experts have been hired to compile relevant Government Schemes/ Programmes (Both central and State Government), which can be tapped for various development interventions.

It is expected that the compiled document will work as referral document for planners and implementers at the time of micro and macro level planning. The digital version of the document will help the beneficiaries in getting the relevant information of the Scheme. I take this opportunity to thank all the members of the study team especially Mr. Gajanan Rauta, the lead consultant for the hard work in compilation of the schemes.

Executive Summary

Background:

Since beginning of the 12th Five year Plan, Convergence of resources was considered to be the key and a new dimension in policy and planning. This has resulted in bringing convergence as a factor in the policies, guidelines and schemes designed and issued since then. To actualize convergence, several efforts have been made by the Government. In order to maximize the benefits through effective planning and implementation of all such Government Programmes, the planners and implementers need to be oriented and supplied with resource material on each of the schemes and its development objectives. This will help in developing an effective district plan and state plan with appropriate convergence of resources.

Keeping in view the needs for a comprehensive document for the planners, implementers and beneficiaries, the SCSTRTI has conceptualized to compile all the relevant Government Schemes that are applicable to various beneficiaries including Individuals, Households, Institutions, Community and different areas. A team of experts were engaged to compile the all the relevant Centrally Sponsored programmes, schemes and State Sponsored schemes intended for development of the area as well as its people, which will act as a resource document for the programme planners to understand the available resource base and the modalities to avail benefit of the programmes and schemes to the intended beneficiaries. Attempt was made to prepare brief on the Sectors of development Intervention, relevant schemes and Programmes detailing the Scheme components, Beneficiary category, Eligibility norms, Institutional arrangement for availing the benefits under the schemes. Department wise list of Programmes and Schemes. It is expected that the document will help the followings:

- a. **Individual Beneficiary** (SC/ST/OBC/ Minority, Men, Women, Girl, Youth, Children, Widow/ Old age persons etc)
- b. **Institutions** (PRIs, Civil Society Organizations, Academic Institutions, Government, Society, Corporations, Producer Groups, Cooperatives, Societies, banks and other agencies)
- c. **Households** (APL/ BPL, Rural, Urban etc)
- d. **Area** (Village, GP, Block, District, State, TSP area etc)

A total of 388 schemes were compiled in this document. The table below indicates the number of schemes intended for benefit of various category of beneficiaries.

| 1 | National Livestock Mission (NLM) | <p>The National Livestock Mission (NLM) has commenced from 2014-15. The Mission is designed to cover all the activities required to ensure quantitative and qualitative improvement in livestock production systems and capacity building of all stakeholders. The Mission will cover everything germane to improvement of livestock productivity and support projects and initiatives required for that purpose subject. This Mission is formulated with the objective of sustainable development of livestock sector, focusing on improving availability of quality feed and fodder.</p> <p>NLM has 4 submissions as follows:</p> <p>The Sub-Mission on Fodder and Feed Development will address the problems of scarcity of animal feed resources, in order to give a push to the livestock sector making it a competitive enterprise for India, and also to harness its export potential. The major objective is to reduce the deficit to nil.</p> <p>Under Sub-Mission on Livestock Development, there are provisions for productivity enhancement, entrepreneurship development and employment generation (bankable projects), strengthening of infrastructure of state farms with respect to modernization, automation and biosecurity, conservation of threatened breeds, minor livestock development, rural slaughter houses, fallen animals and livestock insurance.</p> <p>Sub-Mission on Pig Development in North-Eastern Region: There has been persistent demand from the North Eastern States seeking support for all round development of piggery in the region. For the first time, under NLM a Sub-Mission on Pig Development in North-Eastern Region is provided wherein Government of India would support the State Piggery Farms, and importation of germplasm so that eventually the masses get the benefit as it is linked to livelihood and contributes</p> | <table><tr><th colspan="3">Financial Assistance:</th></tr><tr><th colspan="3">Sub-Mission on Livestock Development</th></tr><tr><th>Sl</th><th>Component</th><th>Pattern of Assistance</th></tr><tr><td>1</td><td>Entrepreneurship Development & Employment Generation [Central Sector (CS)]</td><td><ul style="list-style-type: none">100% (Back-ended subsidy part only)Subsidy 25%, credit 65% for APL; and subsidy 33.33%, credit 56.67 for BPL / SC / ST in normal areasSubsidy 35%, credit 55% for APL; and subsidy 50%, credit 40 for BPL / SC / ST in NER / Hill areas / LWE affected areasSubsidy 45%, credit 45% for APL; and subsidy 60%, credit 30 for BPL / SC / ST in difficult areasBeneficiary Share 10% across all categories</td></tr><tr><td>2</td><td>Infrastructure Development [Government of India (GOI) farms under CS, other farms under Centrally Sponsored Scheme (CSS)]</td><td>GOI farms - 100% State farms - 75%</td></tr><tr><td>3</td><td>Productivity Enhancement [CSS]</td><td></td></tr><tr><td>3.1</td><td>Rural Backyard Poultry Development</td><td>75%</td></tr><tr><td>3.2</td><td>Interventions in the breeding tract of high fecundity breeds</td><td>100%</td></tr><tr><td>3.3</td><td>Research studies and linkages with professional bodies</td><td>100%</td></tr><tr><td>3.4</td><td>Propagation of Artificial Insemination</td><td>100%</td></tr><tr><td>3.5</td><td>Biotechnology centres for fecundity breeds</td><td>100%</td></tr><tr><td>3.6</td><td>Training and orientation of functionaries</td><td>100%</td></tr><tr><td>3.7</td><td>Ram / Buck / Boar shows</td><td>100%</td></tr><tr><td>3.8</td><td>Community led breed improvement</td><td>100%</td></tr></table> | Financial Assistance: | | | Sub-Mission on Livestock Development | | | Sl | Component | Pattern of Assistance | 1 | Entrepreneurship Development & Employment Generation [Central Sector (CS)] | <ul style="list-style-type: none">100% (Back-ended subsidy part only)Subsidy 25%, credit 65% for APL; and subsidy 33.33%, credit 56.67 for BPL / SC / ST in normal areasSubsidy 35%, credit 55% for APL; and subsidy 50%, credit 40 for BPL / SC / ST in NER / Hill areas / LWE affected areasSubsidy 45%, credit 45% for APL; and subsidy 60%, credit 30 for BPL / SC / ST in difficult areasBeneficiary Share 10% across all categories | 2 | Infrastructure Development [Government of India (GOI) farms under CS, other farms under Centrally Sponsored Scheme (CSS)] | GOI farms - 100% State farms - 75% | 3 | Productivity Enhancement [CSS] | | 3.1 | Rural Backyard Poultry Development | 75% | 3.2 | Interventions in the breeding tract of high fecundity breeds | 100% | 3.3 | Research studies and linkages with professional bodies | 100% | 3.4 | Propagation of Artificial Insemination | 100% | 3.5 | Biotechnology centres for fecundity breeds | 100% | 3.6 | Training and orientation of functionaries | 100% | 3.7 | Ram / Buck / Boar shows | 100% | 3.8 | Community led breed improvement | 100% | Rural HH |

| | Yarn Supply Scheme | <p>Government of India has also been providing equity to the NHDC for strengthening its activities. Since strengthening of NHDC by enhancing its capital base is an integral part of its main activity i.e. implementation of the Mill Gate Price Scheme, it has been considered appropriate to merge the component of Investment in NHDC with the Mill Gate Price Scheme. Further, to mitigate the cost disadvantage of handloom sector, the Government of India has included one more component of 10% Price Subsidy on Domestic Silk and cotton Hank Yarn under Mill Gate Price Scheme during 2011-12 to ensure availability of cheap yarn to Handloom Sector. This is in addition to the transport/freight subsidy being already offered under our Mill Gate Price Scheme. Thus, this scheme titled Yarn Supply Scheme has three components, namely, (i) Supply of yarn at Mill Gate Price (ii) 10% Price Subsidy on cotton hank yarn, domestic silk and wool (iii) Investment in NHDC.</p> <p>The objective of this component is to make available all types of yarn at Mill Gate Price to the eligible handloom weavers so as to facilitate regular supply of basic raw materials to the handloom sector and help utilize the full employment potential of the sector</p> | <p>Under the Yarn Supply Scheme, following assistance shall be provided by the Government of India:</p> <ol style="list-style-type: none">1. Freight reimbursement for transportation of yarn (all types)2. Expenses of operating the yarn depots.3. 10% Price Subsidy on hank yarn (cotton, silk, wool)4. | 3 | Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGA) | <p>About MGNREGA</p> <ul style="list-style-type: none"> The Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA), also known as Mahatma Gandhi National Rural Employment Guarantee Scheme (MNREGS) is Indian legislation enacted on August 25, 2005. The MGNREGA provides a legal guarantee for one hundred days of employment in every financial year to adult members of any rural household willing to do public work-related unskilled manual work at the statutory minimum wage. The Ministry of Rural Development (MRD), Govt of India is monitoring the entire implementation of this scheme in association with state governments This act was introduced with an aim of improving the purchasing power of the rural people, primarily semi or unskilled work to people living below poverty line in rural India. It attempts to bridge the gap between the rich and poor in the country. Roughly one-third of the stipulated work force must be women. Adult members of rural households submit their name, age and address with photo to the Gram Panchayat. The Gram Panchayat registers households after making enquiry and issues a job card. The job card contains the details of adult member enrolled and his /her photo. Registered person can submit an application for work in writing (for at least fourteen days of continuous work) either to Panchayat or to Programme Officer. The Panchayat/Programme officer will accept the valid application and issue dated receipt of application, letter providing work will be sent to the applicant and also displayed at Panchayat office. The employment will be provided within a radius of 5 km: if it is above 5 km extra wage will be paid. <p>Key facts that users should know about MNREGA</p> <ol style="list-style-type: none"> MGNREGA guarantees hundred days of wage employment in a financial year, to a rural household whose adult members volunteer to do unskilled manual work. Individual beneficiary oriented works can be taken up on the cards of Scheduled Castes and Scheduled Tribes, small or marginal farmers or beneficiaries of land reforms or | <p>Activities covered under MGNREGA: Permissible activities as stipulated in Para 1 of Schedule-I of Mahatma Gandhi NREGA are as under:</p> <ul style="list-style-type: none"> Union Rural Development Ministry has notified works under MGNREGA, majority of which are related to agricultural and allied activities, besides the works that will facilitate rural sanitation projects in a major way. The works have been divided into 10 broad categories like Watershed, Irrigation and Flood management works, Agricultural and Livestock related works, Fisheries and works in coastal areas and the Rural Drinking water and Sanitation related works. Briefing the MGNREGA 2.0 (the second generation reforms for the rural job scheme) the priority of the works will be decided by the Gram Panchayats in meetings of the Gram Sabhas and the Ward Sabhas. The Rural development also informed that the 30 new works being added in the Schedule 1 will also help the Rural sanitation projects, as for the first time toilet building, soak pits and solid and liquid waste management have been included under MGNREGA. Though the overall 60:40 ratio of labour and material component will be maintained at the Gram Panchayat level but there will be some flexibility in the ratio for certain works based on the practical requirements. Construction of AWC building has been included as an approved activity under the MGNREG Act. ‘Guidelines for construction of Anganwadi Centres’ under MNREGS have been issued jointly by Secretary, WCD and Secretary, Ministry of Rural Development, on 13th August, 2015. Under MNREGS, expenditure up to Rs.5 lakh per AWC building for construction will be allowed. Expenditure beyond Rs. 5 lakh per AWC including finishing, flooring, painting, plumbing, electrification, wood work, etc. will be met from the ICDS funds. <p>MGNREGA Works Directly Linked To Agriculture and Allied Activities</p> | Rural HH |

This may be in terms of formulating new hypothesis, or scientific breakthroughs which aid in emergence of new technologies.</p> <p>Nature of Proposals to be Supported: The scheme is aimed at supporting proposals that are new, challenge existing hypothesis, and provide 'out of box' thinking on important problems. It should contain significant risk elements but promise of high reward if the difficulties could be circumvented. It is expected that the success of such proposals will have far reaching implications in S&T. Outcome could be new and significant theoretical or experimental advances, formulation of new hypothesis, or breakthrough science which will lead to new technologies. Proposals that address scientific issues which will result in 'incremental' knowledge will not be supported. Ideally, the proposal must contain bold research ideas which will have wide ranging impact and potential for new scientific and technological innovations.</p> | <p>Eligibility:</p> <ul style="list-style-type: none"> Applicant should be an Indian citizen residing in India. | 37 | Industry Relevant R&D | <p>The objective of the scheme is to utilize the expertise available in academic institutions and national laboratories to solve industry specific problems for the larger benefit of society.</p> <p><u>Nature of Proposals to be Supported:</u> The scheme is aimed at supporting ideas that address a well-defined problem of industrial relevance. The proposal, therefore, shall be jointly designed and implemented by the academic partner(which includes a partner from national laboratories/recognized R&D institutions as the case may be) and industry. The participating industry should ensure that the objectives are industrially relevant. Routine proposals that address conventional problems and those not related to industry, or with already established approaches are not encouraged. SERB will not list out the industry relevant problems, and it will be the responsibility of the investigator and the industry to join together and come up with a proposal to solve the identified problem. Ideally, the proposal must contain the characteristics of any of the following :</p> <ol style="list-style-type: none"> Proposals that adopt an innovative approach to solve a problem faced by the industry. | 62 | Maulana Azad National Academy for Skills (MANAS)- A Special purpose vehicle | <p>MANAS is an ambitious and over-arching skill development architecture, aimed at providing an all India Level training framework, based upon tie-ups with National/International training organizations (on PPP mode) for imparting training to the minority population, for skills that are currently in demand. It will also provide concessional credit for minority community after meeting their Skilling Needs for expanding their existing businesses and setting up new businesses.</p> <p>Salient Feature of MANAS:</p> <ul style="list-style-type: none"> • Setup as SPV for expanding access to skill development programme for marginalized sections of minority communities – All India collaborative framework (based on PPP mode). • Focus on entire spectrum of skill sets in demand by the market meet credit requirement for self employment – wide range of Skill based Courses, of different durations/ levels. • Provide a sustainable and scalable model, with great flexibility Training Programmes can be tailor made for implementation in any part of the country, for any skill sets, for any level of training with multiple choices in terms of funding etc. • Meet diverse skill training/up-gradation needs of minority communities in terms of Identification, Preservation & Promotion of their traditional arts/crafts, vocations under schemes like Hamari Dharohar, USTAAD etc. • Convergence of Financial & Development activities of the Corporation & Linkages with leading local / national & international organizations for all its activities from training to placements in job/ self employment projects for trainees, for providing high quality skill training. • Provides highly transparent, credible and almost leak proof Skill Development Framework, by extensive use of ICT Biometric based attendance system of trainees and trainers, Live CCTV coverage of on ongoing training, highly interactive website providing comprehensive information, to all stake holders. <p>There are five verticals in MANAS. The vertical wise operations is listed below.</p> <ol style="list-style-type: none"> a. Skill Development Programme b. Credit & Reimbursement Support c. Use of Madrassas for Skill Development d. Training of the Trainers Programme (TOT) e. Development & Research Activities | <p>Vertical-1:Skill Development Programme</p> <p>This vertical would operate in collaborative mode, primarily with National Skill Development Corporation (NSDC) and its partners, and with Government, Semi Government agencies, and other reputed large scale private agencies, working in this field. Initially, the curriculum would be adopted from 26 Sector Skill Councils and other knowledge partners, having curriculum in consonance with National Occupational Standards (NOS)/ National Vocational Education Qualification Framework (NVEQF). The curriculum would also be developed by MANAS in collaboration with the actual employers of the skilled labour force, as per their requirement to ensure placements.</p> <p>The training facilities and infrastructure would be provided as per the norms, by NSDC partners and other large scale professional training providers, who would collaborate with MANAS for skills training. Certification would be done jointly by MANAS with Sector Skill Councils, and by and other Industry accepted accreditation & certification bodies / leading players, in their respective sectors, to ensure competence and quality assurance of the training given. Placement for wage-employment would be ensured through NSDC partners / training partners of MANAS. Self employment to be ensured by the training partners with NMDFC loans through MANAS.</p> <p>The training partners of MANAS and MANAS itself will become a Channelizing Agency of NMDFC for this purpose to establish link in between disbursement of credit and self-employment generation through Skill Development/Skill up-gradation. Overseas placement would be undertaken through the Ministry of Overseas India Affairs and placement within the country through other Government Departments/Agencies. Monitoring, supervision & tracking of the candidates would be undertaken by MANAS / training partners etc. MANAS will use data center of NMDFC.</p> <p>Vertical-2: Credit & Reimbursement Support</p> <p>MANAS would extend concessional loans to the persons belonging to Minorities for individually pursuing third party skill development training, where the training cost is very high and the training is not being conducted under the network of MANAS. A loan up to Rs. 2.0 Lakhs per annum would be extended at an interest rate of 3% p.a. by MANAS. The short terms courses of 6-12 months, which are cost intensive & highly specialized / technical in nature such as medical technologies, earthmover operators, CNC operation etc. could be considered under this vertical.</p> <p>MANAS would also consider reimbursing the training fee of the persons belonging to Minorities who have obtained specialized skill development training on their own expenses, and are gainfully employed / self employed. Such candidates would be required to produce documents in support of their employment for a period of time.</p> | Minority Youth, NGO, Research organisations |

| | | | <p>Vertical-3: Use of Madrassas for Skill Development There is vast all India network of Madrassas at all India level , mainly in remote & rural areas. Significant section of Muslim population is engaged with Madrassas. They can be used as effective channel for imparting skill development programme by setting-up training centre in Madrassas immediately saving time and resources . Ensure involvement of community & its leaders for success of the training programme.</p> <p>Vertical-4: Training of the Trainers Programme (TOT) It would develop standardized curriculum and required training infrastructure for Training of the Trainers with the help of the training partners in the field of traditional trades/crafts/skills of the Minority Communities with emphasis upon those which are getting phased out. It would identify such trades indifferent parts of the country, cluster wise / trade wise. It would setup CHAIRS for Process and Product Documentation, in order to preserve their oral traditions of training and formalize them into a standardized curriculum to be used for the Training of the Trainers. It would use trade-wise, cluster-based approach (Like Weavers Service Center, Banaras, Sozni in J&K etc.) to provide training to local youths by these Master Trainers using the network of MANAS along with the credit facilities of NMDFC for it. MANAS will facilitate standardization of the product, its branding and its marketing through its third vertical of developmental activity. It would also conduct TOT for imparting Skills training in various skill-sets, required to meet the estimated skill gaps locally. Based upon Skill Gap Surveys for different regions, the demand for skill sets in near future, in a particular area can be identified. MANAS will create training facilities and the required curriculum for the Master Trainers in the identified skill sets, through its training partners, for training of Master Trainers for these skills. It would provide necessary credit facilities and other infrastructure support to the Master Trainers for providing training at local level to ensure absorption of trainees locally and thereby prevent migration of labour due to pull factors</p> <p>Vertical-5: Development & Research Activities MANAS in collaboration with NSDC and various other Organizations, working in the field of Skill Development, will conduct studies for identifying estimated skill gaps region-wise and trade-wise in different parts of the country. It would expand its training network based upon collaborations to cover all parts of the country, across the entire spectrum of skills likely to be in demand in near future at local, national & international levels. It would provide assistance in product and process development, standardization, branding of the products and market support with the help of credit to be provided by NMDFC and its SCAs. It would engage in capacity building/training of its own staff members/personnel/employees to develop standard operating procedures and collaborative network required by MANAS</p> | |

Organizing Entrepreneurship & Vocational training for Skilling/Re-Skilling of persons belonging to targeted Minority communities with a view to help them in wage/self-employment.5. Marketing Assistance to Artisan and Craft persons for sale/display of their products. <p>NMDFC has two channels to reach to the ultimate beneficiaries;</p> <ol style="list-style-type: none">(i) Through the State Channelising Agencies (SCAs) nominated by respective State/UT Government; generally each Channelising Agency has an office at district level where the beneficiary is required to make formal application(ii) Network of NGO/SHGs for micro-credit. <p>The following are the financial assistance schemes of NMDFC:- The concessional credit line of NMDFC is bifurcated into two streams:- Credit Line 1:- is the existing stream of concessional credit, being disbursed on the basis of income limits of Rs.81,000 p.a. for rural areas & Rs.1.03 lacs in urban areas, at the same concessional interest rate p.a.(TL-6%, EL-3%, MF-7%) although the quantum of credit has been increased (Max Limit of Rs.10.00 lacs increased to Rs.20.00 lacs under TL, Rs.50,000 increased to Rs.1.00 lac under MF & Rs.10.00 lacs increased to Rs.15.00 lacs under EL scheme) keeping in view the inflationary pressures & field level demand brought out in the Impact Study & Beneficiary Verification reports. Credit Line 2 :- concessional credit is provided to the section of Minority population with annual family income of up to Rs.6.00 lacs, defined on the basis of “Creamy Layer” criterion of OBC by Government of India. It will get concessional credit but at a slightly higher rate of interest (Max – 8% for males, 6% for females under TL; 10% for males & 8% for females under MF; 8% for males & 5% for females under EL) than available under Credit Line – 1. Beneficiaries from the Credit Line -1 with lower annual household income will also be considered under Credit Line-2 for higher quantum of loan with higher interest rates, once they successfully utilize earlier loan & repay the same in time.</p> | <p>Loan details: a. It provides cash assistance of Rs. 1 lakh for male bonded labourers, Rs. 2 lakh for female and child bonded labourers and children rescued from forced labour or organised or forced begging, and Rs. 3 lakh for differently-abled, physically challenged, trafficked, commercially sexually exploited, transgender, and other severely vulnerable bonded labourers. 2. The male rehabilitated bonded labourer provided with Rs. 1,00,000 can opt to deposit the money in an annuity scheme, or directly receive the sum. The district administration will assess his cash requirement and put the money in an annuity scheme with his consent. 3. For the females and children receiving Rs. 2,00,000 cash assistance, at least Rs. 1,25,000 will be deposited in an annuity scheme, and the remaining amount will be transferred to their bank accounts through electronic clearing service. 4. Rehabilitated bonded labourers who are extremely vulnerable and thereby receive Rs. 3 lakh cash assistance will similarly have at least Rs. 2 lakh deposited in an annuity scheme, and the balance will be transferred to their bank account through electronic clearing service. 5. Non-cash assistance provided to all rehabilitated bonded labourers must include allotment of house-site and agricultural land; land development; provision of low-cost dwelling units; animal husbandry, dairy, poultry, piggery, etc.; wage employment, enforcement of minimum wages, etc.; collection and processing of minor forest products; supply of essential commodities under targeted public distribution system; and, education for children. 6. Adult male bonded labourers must be compulsorily given employable skill training. Children, female, and disabled bonded labourers must be provided with proper education, counselling, short-stay homes until Class XII, and skill development. Financial and other assistance for marriage must be given to women and disabled bonded labourers. Disabled bonded labourers are also entitled to the special care enlisted in the national policy for the disabled. <p>How the Funds Reach the Rehabilitated Bonded Labourer</p> <p>Under the 2016 scheme, the authorities will release funds after proving bonded labour in court and convicting the creditor. The District Magistrate can make proposals for financial assistance only upon finding prima facie proof of bondage.</p> <p>The District Magistrate must submit a claims proposal to the District National Child Labour Project Society, specifying the details of the State Government's rehabilitation assistance, a category-wise break-up of bonded labourers who need rehabilitation, a release certificate for every bonded labourer, and the penalty or punishment of the creditors.</p> | Rehabilitated Bonded Labour |

| 9 | Integrated Power Development Scheme | <p>Integrated Power Development (IPDS) scheme a new version of the earlier scheme “Restructured Accelerated Power Development”. This scheme focuses on improvement of Transmission and Distribution networks across India. It promises help in reduction of AT&C losses, establishment of IT enabled energy accounting / auditing system, improvement in billed energy based on metered consumption and improvement in collection efficiency.</p> <p>All discoms including private discoms and state power departments are eligible to get financial assistance under it. The discoms can prioritize what fraction of their infrastructure work is to be strengthened and can apply for assistance with their detailed project reports. The projects supported under this scheme need to be completed within 24 months. Like R-APDP, Power Finance Corporation is nodal agency for this scheme.</p> <p>projects under the scheme shall be formulated for urban areas (Statutory Towns) only and will cover works relating to strengthening of sub-transmission & distribution network, including provisioning of solar panels on Govt. buildings including Net-metering, metering of feeders /distribution transformers / consumers and IT enablement of distribution sector. Scope of IT enablement extended to the statutory towns having population upto 5000 as per Census 2011. In 1st phase towns having population upto 15000 may be taken up and the population threshold may be gradually reduced to 5000. For special category states the population threshold may be 5000. The details of scope of works covered along with works not eligible under the scheme are as under:</p> <p>a. Strengthening of sub-transmission and distribution network</p> <ol style="list-style-type: none"> Creation of new sub-stations including Gas Insulated Sub-station along with associated 66 KV / 33 KV/ 22 KV/ 11 KV lines Augmentation of existing sub-stations capacity by installation of higher capacity/additional power transformer along with associated equipment/ switchgear etc. Erection of HT lines for reorientation/ re-alignment including augmentation of existing lines | <p>Eligible entities: All Discoms including private sector Discoms and State Power Departments (referred to as Utilities) will be eligible for financial assistance under the scheme. In case of private sector Discoms where the distribution of power supply in urban areas is with them, projects under the scheme will be implemented through a concerned State Government Agency and the assets to be created under the scheme will be owned by the State Government / State owned companies. These assets will be handed over to the concerned Discom for their use during the license period on mutually agreed terms and conditions.</p> <p>Eligible Cost for determining grant: The project cost approved by the Monitoring Committee or award cost of the project (<i>including price variation, if any</i>), whichever is less, shall be the eligible cost for determining the Grant.</p> <p>Mode of Implementation: The projects shall be implemented on turn-key basis. However, in exceptional circumstances, execution on partial turnkey/departmental basis shall be permitted with the approval of the Monitoring Committee.</p> <p>Implementation Period: Projects under the scheme shall be completed within a period of 24 months from the date of issue of Letter of Award (LoA) by the utility, in case of turnkey implementation. For execution on partial turnkey/departmental basis, approved by the Monitoring Committee, project needs to be completed within 30 months (24 months for implementation and 6 months for placement of awards for supply and services i.e. erection) from date of communication of the approval of the Monitoring committee.</p> <p>Project Management Agency (PMA): An appropriate Project Management Agency (PMA) will be appointed preferably utility-wise to assist them in project management ensuring timely implementation of the project. 100% grant will be provided by Government of India towards expenditure incurred on Project Management Agency (PMA) as per provision in the scheme i.e. up to 0.5% of cost of works. The utility has to bear any cost beyond 0.5% of the project cost, if any, from own resources for deployment of PMA.</p> <p>Funding Mechanism: The financial support under the scheme shall be as under:</p> | Power Distribution Companies, Project Management Agencies, Urban Areas , Government Buildings |

| 15 | Canal Lining & System Rehabilitation Programme | <p>The state has made a considerable progress in development of surface water resources. The benefits of flow irrigation are evident. However, a good number of irrigation projects (major, medium and minor) in the state are quite old and have been operating below their potential due to various reasons including lack of maintenance of the canal systems. The main canals and distribution system are not capable of carrying the designed capacity. Seepages in canals are observed near the structures, high embankments and in areas passing through permeable soils. This has resulted in the problem of unreliability in the availability of irrigation water at farm level causing low efficiency of water usage and low productivity. Farmers in the tail end areas of the project are the worst sufferers. Sometimes farmers of high reaches damage the earthen canal embankment and draw excess water. To alleviate these deficiencies in the system above the outlet and for efficient management of water for irrigation, a new scheme namely “Canal Lining & System Rehabilitation Programme (CLSRP)” is being started under the State plan.</p> <p>Objective:</p> <ol style="list-style-type: none"> 1. To improve the performance of an irrigation system and to increase the water use efficiency of canals. 2. To enhance water availability at farm level and reduce seepage losses in distribution system. 3. To reclaim the valuable agricultural land getting unsuitable for use due to water logging and salinity resulting out of seepage from canals. 4. To reduce the gap between irrigation potential created and irrigation potential utilized in various projects. <p>Selection Criteria:</p> <ol style="list-style-type: none"> a. Canal systems (Main canal, Branch Canals, Distributaries, Minor Canals) passing through permeable soils where substantial water is lost due to seepage and percolation. The project aims to develop four contiguous river basins by enhancing the productivity and sustainability of the existing underutilized major, medium and minor lift irrigation projects, while simultaneously strengthening and empowering water users associations (WUAs) and allied institutions like the Water and Land Management Institute (WALMI). The river basins selected for the project – Subarnarekha, Budhabalanga, Baitarani and Brahmani cover 29% of the land area and support one third of the state's total population.</p> <p>Objectives</p> <ul style="list-style-type: none"> To reduce regional imbalances in infrastructure development. Development of well-planned and fully serviced new areas (greenfield) will be encouraged around cities in order to accommodate the rapidly expanding population in urban areas. Application of Smart Solutions will enable cities to use technology to improve infrastructure and services.Comprehensive development in this way will improve quality of life, create employment and enhance incomes for all, especially the poor and the disadvantaged, leading to inclusive cities. | | | | | | | | | | | |

| 1 | National Afforestation Programme: A Participatory Approach to Sustainable Development of Forests | <p>It is a flagship scheme of Ministry of Environment and Forest which provides support, both in physical and capacity building terms, to the Forest Development Agencies (FDAs) which in turn are the main organs to move forward institutionalization of Joint Forest Management. The FDA has been conceived and established as a federation of Joint Forest Management Committees (JFMCs) at the Forest Division level to undertake holistic development in the forestry sector with people's participation. This decentralized two-tier institutional structure (FDA and JFMC) allows greater participation of the community, both in planning and implementation, to improve forests and livelihoods of the people living in and around forest areas. The village is reckoned as a unit of planning and implementation and all activities under the programme are conceptualized at the village level. The two-tier approach, apart from building capacities at the grassroots level, significantly empowers the local people to participate in the decision making process. Under Entry Point Activities, community assets are created with a 'care and share' concept.</p> <p>The main objective of the scheme is to Increase and/ or Improve Forest and Tree Cover (FTC).</p> | <p>Funding Pattern: The scheme would be implemented as a Centrally Sponsored Scheme with 100% central funding.
