Female literacy	3.81%	18.32%	Increase by 4.51%															

### **Part-III**

#### **APPROACH OF THE STATE GOVERNMENT/UT ADMINISTRATION IN BRIEF FOR THE DEVELOPMENT OF PTGs DURING XITH FIVE – YEAR PLAN (TO BE BASED ON BASIC DATA GIVEN IN PART-II) PAUDI BHUIYAN DEVELOPMENT AGENCY, RUGUDAKUDAR, DEOGARH**

##### **1. Aims and objectives:**

The CCD plan during the 11<sup>th</sup> plan period (2007-12) is an ambitious programme for the total development of the PTGs. It aims at improving infrastructure and providing basic amenities within easy reach in the habitat of the PTGs and generating additional employment and income of the PTG people with a view to reduce their poverty, raise literacy level, ensure health and food security and enhance their quality of life and conserve their culture. The basic approaches of the CCD plan are:

- Total development through an integrated approach by pulling resources from Central Govt. and State Govt.
- GO, Grampanchayats and NGO partnership to address the development needs of the PTG. The NGOs will be invited to extend their funds and functionaries for the PTG development programmes, principally on the IEC component.
- People's participation in development process will be encouraged through the involvement of traditional institution, like Labour Cooperatives, youth dormitory, SHGs etc.
- Basic infrastructure will be created and amenities like health, education, drinking water, roads will be made available to the PTG people within their easy reach.
- Shifting cultivation & up land will be developed as orchards with spice intercropping to protect environment and provide employment and income.
- Assistance for conservation and promotion of PTG traditions, like Labour Cooperative, Horticulture, Changu dance and their up keeping.
- Social security will be ensured through the provision of fireproof houses, grain banks and coverage of all families under Janshree Vima Yojana.

## **2. Socio-economic development:**

### **(i) Education:**

The PTGs are very backward, educationally. Their total literacy till today is leveled at less than 22 percent. Their female literacy is alarmingly low, less than 20 percent. Their children prefer to do, indoor and outdoor, works rather than going to schools. The incidence never attending children and dropped out children is very high among the PTGs. Thus the CCD plan indicates educational development intervention by operating an “Educational Complex” in every Micro Project to take special educational (both formal and vocational) care for promotion of girls’ education of the PTGs, and raise their literacy and awareness levels and skills and empower them, educationally, economically and socially. Besides, the task of animators will be account keeping of SHGs, & they will be coordinators and facilitators of different development works organizers of health camps and training and awareness programmes of the Micro Project at Villages.

### **(ii) Health and Nutrition:**

The CCD plan reflects health measures through participation of one Medical Officer and one ANM of Local Primary Health Centre in Mobile Health unit as well as organizing of health camps for common diseases for all affected people and providing life saving medicines for the serious patients. This will check spreading the deadly malaria disease and malnutrition and help cure the people from diseases and save them from disorders and deaths.

### **(iii) Infrastructure:**

The development of infrastructure- Village link roads bridges/culverts, irrigation facilities, educational and health and market, is essential for accelerating economic development of the PTG people. The CCD plan investment in village infrastructure will give impetus to economic activities, improve tribal skills, facilitates delivery of social services, generate additional employment and income. The Micro Project in the partnership with the DRDA, Forest Department and Grampanchayats will have a vital role to play in the process of building up the infrastructure in Paudi Bhuiyan villages.

#### **(iv) Drinking water and Irrigation:**

By turn of 2012, the CCD plan initiative will ensure coverage of all the problem villages, where drinking water is scarce, with access to safe drinking water by digging of sanitary wells, installing tube wells wherever they are feasible. The construction of check dams and Division Weirs and extending canals and water channels from the dam sites to the farms and fields will provide irrigation facilities for the agro-horticulture operations during kharif and rabi seasons.

#### **(v) Income Generation:**

The CCD plan envisages development of land with paddy & vegetables cultivation and plantation of fruit bearing trees, like, mango, banana & species, such as turmeric and ginger (organic produce), as the core income generating programme. Most of the income generating programmes will be implemented through a group mode (Women SHGs). The schemes, like fruit and food processing and trading of agro-forest produce and their transporting will be implemented by the SHGs. This will arrest economic exploitations of the Paudi Bhuiyan by middlemen. The climatic condition of the area is characterized as sub-tropical & influenced by South eastern monsoon.

### **3. Protection of Traditional Knowledge and Culture:**

The agro-forest based economic activities in the hills are difficult tasks that require coordination of people in a cooperative spirit. The practices of traditional “labour cooperatives”, working together for each others work, will be put as a development input in all the labour-based economic activities for accomplishing the difficult tasks, up in the hill farming. Therefore, the plan suggests strengthening of SHGs, traditional labour cooperatives, youth dormitories and construction of community centers. The Paudi Bhuiyan dances have a social and religious significance. Women dance while the men play “Changu” drums and sing songs in this dance.

Part – IV

PROBLEMS OF PTGs AND PRIORITIES FOR THE  
XITH FIVE-YEAR PLAN

PAUDI BHUIYAN DEVELOPMENT AGENCY, RUGUDAKUDAR, DIST-DEOGARH

Sl. No.	Name of PTGs living in the State/UT	Major Problems being faced by the particular PTG (Sector-wise, e.g. Health, Education, Income Generation, Culture, Housing, Habitat etc.)	Priorities of the State/UT for each PTG for the Xi th Plan Period (To priorities out of Infrastructure/Roads/Education/Health/Housing/Drinking Water/Income Generation/Agri. development/Protection of traditions etc. )
I	II	III	IV
1.	Paudi Bhuiyan	<ul style="list-style-type: none"> <li>• <b>Health:</b> Endemic Malaria (Plasmodium falciparum) and malnutrition are the main health hazards.</li> <li>• <b>Education:</b> Very low rate of literacy, and lack of development awareness.</li> <li>• <b>Income Generation:</b> Shifting Cultivation resulting in deforestation, soil erosion, uneconomic harvest &amp; eco-hazards, Undeveloped land for paddy cultivation, lack of irrigation.</li> <li>• <b>Housing:</b> Most of the families have small houses. These should be replaced by fire proof houses.</li> <li>• <b>Habitat:</b> Depletion of forest and soil erosion adversely affecting the habitat's ecology and agro-forest based economy. Most of the villages are inaccessible for which the Paudi Bhuiyan fail to get market prices for their produce, and fail to avail health care facilities down the hills.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Education:</b> Setting up of an Educational Complex.</li> <li>• <b>Connectivity:</b> Construction of roads, culverts and small bridges.</li> <li>• <b>Irrigation &amp; land development:</b> Check dams and water channel followed by stone bonding and land development.</li> <li>• <b>Housing:</b> Construction of fireproof houses is as Indira Awas Yojana.</li> <li>• <b>Health:</b> Setting up of Mobile Health Unit/ organization of health camps.</li> <li>• <b>Drinking water:</b> Construction of sanitary well and installation of tube wells.</li> <li>• <b>Protection of Tradition:</b> Spices, turmeric and zinger, intercropping.</li> <li>• <b>Organization of Cultural Troops:</b> Dancwe and songs (Changu).</li> </ul>
