(iii) Brief Note on the implementation of CCD Plan which should cover the reasons for not achieving targets, activities which proved to be very beneficial for PTGs, activities which should be given priority, need for taking up new activities and lessons learnt etc.

Reasons for not achieving financial target –

- Part and late Release of funds
- Absence of key field functionaries and frequent transfer and posting of key officials
- Lack of facilities for transportation of personal and development inputs to the remote villages of the project area.
- Low level of awareness of the target people towards acceptance of development programmes.

Activities proved beneficial

- Establishment of Educational Complex generated a new environment of hope.
- Multi cropping pattern of agriculture enhanced the scope of actual income and better living style.
- Increase in irrigation facility improved agricultural production.
- Provision of safe drinking water facility and other health related programmes will improve their health and living style.
- Expansion of connectivity will open up their doors to a new horizon.

Activities which should be given priority

- More projects and schemes relating to education, health and sanitation, drinking water facility, connectivity and conservation of their culture should be taken up in priority basis.
- A good market linkage for their products must be created.

- People's participation should be ensured.

PART - IV

APPROACH OF THE STATE GOVERNMENT IN BRIEF FOR THE DEVELOPMENT OF PTG during XIIth Five-Year Plan

Aims & Objectives :

The CCD Plan during the 12th plan period (2012-17) envisages a holistic and sustainable development of the PTGs. Main emphasis is given to the conservation of culture vis-à-vis sustainability of livelihood. It aims at improving critical infrastructure and providing basic amenities within easy accessibility to and within their habitat, improving their educational, health, nutritional and economic status to improve their quality of life and bring them at par with their tribal and non-tribal neighbours and finally mainstreaming them. This kind of development intervention should preserve and protect their age-old pristine culture and traditions and help them in maintaining their cultural identity. A balance has to be made between conservation of culture and development by making adequate provisions for the latter in the Action Plan.

The basic approaches of the CCD plan are:

1. Holistic development of PTGs through integrated approach by pulling resources from Central Govt. and State Govt.
2. Partnership of GOs, GPs, Micro Project and NGO to cater to the development needs of the PTGs. The NGOs will be invited to extend their funds and functionaries for the PTG development programmes, especially on the IEC activities,
3. Full participation of the people in development process will be encouraged through SHGs and traditional institutions.
4. Creation of basic infrastructures and provision of essential amenities in the sectors of health, food security, education, drinking water, communications, energy etc within the easy reach of the PTGs.

5. Assistance for conservation and promotion of PTG culture, by capacity building and skill upgradation in traditional arts, crafts, trades, as well as folk traditions in performing arts. For accomplishment of the task, the programmes are preparation of siali rope, sika, topa and modern household articles, training for bee cultivation and honey processing, arrowroot cultivation and processing, preparation of resin based incense stick, provision of leaf cup and plate making units, growth of herbal gardens, setting up of museum and sale centres for processing and sale of value added MFPs, construction of village cultural *mandaps* and supply of traditional musical instruments to perform their traditional dance, drama and songs etc., construction of village entrance gates depicting traditional ethnic style, audio-visual documentation of their culture.
6. Upgradation of Multipurpose Service Centres as Information Centres by publication of Newsletter based on the events, success stories, adult education and awareness generation about Govt plans and programmes through info-entertainment.
7. Social security to be ensured through universal coverage under Janashree Bima Yojana.

1. **SOCIO-ECONOMIC DEVELOPMENT:**

- **EDUCATION:**

Educationally the Hill Kharia and Mankirdia are backward. Their level of literacy is 42.41% with female literacy at 36.41%. Being poor they prefer their children to assist them in indoor and outdoor works rather than going to schools. Therefore in this plan there have been provisions for construction of Gyanmandir for nursery education and adult education by engagement of MPWs,

construction of Educational complex (Residential) for Boys and pecuniary incentives for the parents to make good their economic loss for sending their children to schools.

- **HEALTH & NUTRITION:**

The CCD plan provides for preventive and curative health measures through participation of tribal traditional medicine-men in development of herbal garden, organization of Health camps through NGOs, provision of Ambulance, Supply of medicines to patients, supply of medicated mosquito nets for prevention of Malaria to improve their health conditions

- **INFRASTRUCTURE:**

The development of essential and critical infrastructure shall be made by way of Construction of Village link roads, CC roads, CD works; Irrigation structures like -Check dams, WHS, DWs, Education-Construction of Educational complex for boys, Gyanmandirs; Provision for Safe Drinking water by sinking of tube wells, bore wells and pipe water supply.

- **INCOME GENERATION:**

Special emphasis on sustainability of traditional livelihood through bee cultivation & honey processing unit, Arrowroot cultivation & processing unit, Modernization of siali craft for preparation of modern household articles, setting up of leaf cup and leaf plate making unit, growth of kitchen and herbal garden, construction of Museum-cum-selling centre, Plantation of cashew, mango, banana through WADI programmes, setting up of Banaraj mother chick units, duckery and pisciculture etc.

2. PROTECTION OF TRADITIONAL KNOWLEDGE AND CULTURE:

Construction of Museum-cum-sale centre, cultural *mandaps* to perform their traditional dance, drama, festivals, supply of ethnic musical instruments, assistance for cultural events, exposure visits, participation in cultural meets at various levels, development of herbal gardens, training for bee keeping , setting up of honey processing units, cultivation of arrow roots and setting up of processing units, setting up of leaf cup and plate making units, resin based incense stick making units, promotion of siali craft, construction of village entrance gates in ethnic style, construction of Multipurpose service centres and audio-visual documentation etc. for development of their culture and socio-economic standards.

4. Project Management / Institutional Mechanism & Monitoring / IEC / Publication

Under this new initiative, Anthropologist, Junior Horticulture Officer, Junior Agriculture Officer, Multi Purpose Workers etc. have been planned to be engaged through the CCD Plan to extend support, expertise, monitor and supervise the implementation of programmes meant for the PTGs.

PART-V

PROBLEMS OF PTGs AND PRIORITIES FOR THE XIITH FIVE YEAR PLAN

| Sl no | Name of PTGs | Major Problems being faced by the particular PTG | Priorities for PTG |
|-------|--------------|--|--------------------|
|-------|--------------|--|--------------------|

| | | | |
|--|--|--|--|
| | | | |
|--|--|--|--|

**HILL
KHARI
A,
&
MANKI
RDIA**

- **Health:** Endemic Malaria, tooth decay, skin diseases and malnutrition are the main health hazards.
- **Education:** The rate of literacy is 42.41%. But due to geographical barriers like hill streams, hills and forest between certain villages absenteeism is very high particularly in Rainy season. There is one specific educational complex for Girls where 250 students are residing and studying. But there is no Educational Complex for Boys which is needed to increase the literacy rate and to check the drop-outs.
- **Housing:** Lack of ventilation. As the number families increasing day by day, there is shortage of houses and the houses already provided to them badly needs maintenance.
- **Connectivity:** This is a prime need for this remote forest area for acceleration of the pace of development.
- **Decadence of Pristine Tribal Culture** under the powerful impact of modernization as evident in the tribal society these days.
- **Income Generation :** Hill Kharia and Mankirdia being forest dwellers primarily depend on collection of MFP for their subsistence. But the restrictions, particularly in Tiger Reserve Forest (Similipal Hills) pose a major problem for them. Secondly lack of proper marketing facilities for MFP due to poor connectivity and exploitation by middle men adds to their woes
- **Habitat:** Depletion of forest adversely affecting the habitat, ecology and agro-forest based economy.
- **Education:** Establishment of an educational complex for Boys and Gyanamandirs for nursery education in each village, Cash incentives to parents of each school going students to reduce dropouts, ensuring adult education in each village through Multi Purpose Workers.
- **Conservation of Culture:** Preservation and Promotion cultural folk tradition of arts, crafts, dance, song etc by provision of village cultural *mandaps*, musical instruments, participation in cultural events at different levels, establishment of museum, promotion of traditional crafts
- **Housing:** Construction of Houses for the needy families and maintenance of the existing houses allotted to them earlier.
- **Health:** Organization of mobile Health camps, supply of medicines to patients, supply of mosquito nets, provision of Ambulance and coverage on national health insurance scheme.
- **Drinking Water:** Installation of Tube wells, Bore wells with Pipe water supply.
- **Connectivity:** Provision of CC Roads, Link Roads, CD works etc.
- **Irrigation:** Construction of Check dams, Water harvesting system, Diversion weir etc.
- **Income generating Schemes:** Setting up of MFP processing and sale units with special emphasis on marketing through SHGs, Capacity Building and Skill up gradation, Exposure visits
