## **MESSAGE**

For the development of a society there is a need of equitable and balanced progress of all the sections of human communities and for this perspective, it is very important to bring the weaker, deprived and discriminated sections such as Scheduled Tribes to the front position of mainstream of socio-economic system and national development. To develop the tribal community, role of education is vital and educational development is more important. Education among tribal people is given priority for the betterment of tribal community. Education is the key to all round human development. To improve the education among the tribal people **Ashram School (AS)** has playing a significant role. The basic objective of Ashram school is to provide residential schools for Scheduled Tribes including PTGs (Primitive Tribal Groups) in an environment conducive to learning to increase the literacy rate among the tribal students.

I feel happy that Tribal Research & Culture Institute is publishing an Evaluation Series for the first time ever in Tripura based on the evaluation study on various ongoing Tribal Development schemes conducted by various researchers and funded by Tribal Research & Culture Institute.

Present volume is part of the evaluation series is based on empirical research conducted by Dr. Jayanta Choudhury and Reshmi Ghosh in eight sub-divisions covered all the districts of Tripura. This series has tried to find out overall status of tribal students those who avail the facilities.

I strongly believe that the findings and recommendations of the study will provide immense knowledge about the educational status of tribal students in Tripura.

## **ACKNOWLEDGEMENT**

Education is the backbone of a country. Not only it plays a vital role in the life of every human being but also occupies an important place in the development process of a country, its growth and welfare. Even it is considered as one of the most important indicators of development in a country according to quality-of-life approach. The importance of education as one of the most powerful means of bringing about socio-economic development of the Scheduled Tribes. As educational development is a stepping-stone to economic and social development, and the most effective instrument for empowering the tribal. Ministry of Tribal Affairs, Government of India makes all efforts for the development of tribal people.

Government of Tripura also has accorded priority for promoting education among the tribal boys and girls in the state. A large number of incentives schemes have been implemented by the state government in order to achieve the objectives of the universal education in the state especially among the tribal boys and girls. The schemes are implemented by the Tribal Welfare Department and very helpful towards improvement of tribal education in Tripura.

This evaluation series is the outcome of concurrent evaluation study to assess the performance of the educational schemes and find out the impact of schemes among the tribal students. It also prescribes policy direction for possible consideration of the Government of Tripura for better implementation of these schemes.

Our sincere thanks go to the Sri S. Debbarma, Director, Tribal Research and Cultural Institute, Government of Tripura for considering publishing the evaluation series. We also thankful to Sri Bidyut Kanti Dhar, Research Assistant of TR & CI for his sincere effort in various stages to bring the manuscripts in series form. We are also thankful to Sri P.Reang, Deputy Director, Tribal Research and Cultural Institute, Government of Tripura and all the members of Research Advisory Committee and Manuscript Committee for

their valuable suggestions during every step while conducting concurrent evaluation study and develop manuscript.

We acknowledge the sincere help of Miss Debasree Saha, student of Department of Rural Management & Development, Tripura University and various field investigators from, IGNOU for involving during various stages of the evaluation study. We were enriched enormously by the discussions with various state Government officials and local level functionaries during the study.

However, we are responsible for any fault that may remains.

## **RESEARCH HIGHLIGHTS**

- The general performance of Ashram School (AS) was found to be satisfactory. All the children were passed with good number.
- Some students of ASs had been selected for technical courses after clearing joint entrance examination.
- Approximately 40 percent teachers in AS Schedule Tribe were from the community.
- Students were mainly admitted in the Ashram Schools for their better education and poor family condition.
- Students were strongly agreed that teachers always encouraged them to ask questions about their problems and were very much helpful.
- Students were also satisfied with school environment, teacher's behavior and staff's behavior with them.
- Students were less satisfied with fooding and lodging facilities.
- Sanitation facilities in all ASs were poor.

## INTRODUCTION

Education is the primary sector for development of community and due to this ministry has introduced another scheme for development of tribal people by creating a **Ashram school** in every district of state to spread the quality education among the tribal people.

Ashram schools have been viewed as effective institutions to meet the educational needs of tribal living interior, most backward and scattered habitations where opening up of normal school is not viable. The concept of Ashram school stems from the objective of providing an atmosphere in which the inmates are offered full opportunities for total personality development. The concept of Ashram schools for tribal children has been derived from the traditional Indian Gurukulas and the Gandhian philosophy of basic education, in which the teacher and the students taught live together and have close interaction. This type of closeness helps the students not only in sharpening the capacities but also in full personality development. *(Sujatha, 1990)*

Ashram Schools are residential schools imparting primary, middle and secondary education to ST boys and girls. The Ashram Schools which are run by State Governments have been an important tool to give formal education to ST children at the elementary level. The purpose of the Ashram School is to bring about the total development of tribal children with an emphasis on vocational education which can train them to stand on their own legs and become idealistic and selfless independent citizens of the nation. As the schools are residential, it can reduce the incidence of student's absenteeism in school, improve the standard of education at the primary level and reduce the burden of their parents from incurring expenditure on their children's education. Different facilities like school building, playground, and free kitchen, gender teaching material, furniture, dress, books and

### ***Ashram Schools***

economic resources have been provided to motivate the tribal children and their parents towards education. Again, by staying in the Ashram School during the crucial years of schooling from five to sixteen years, they will definitely continue their study in the school without dropping from the midway. Above all, an effective socialization can grow among tribal children which will ensure better level of educational attainment among them. Ashram Schools are specially designed to suit children of tribal background to attain better education. Generally Ashram Schools provide education from class I to class VII or class IV or V in certain area. (*Sasthry, 2010*)

The Ministry of Tribal Affairs has been implementing a central scheme which aims at establishing ashram schools in Tribal Sub Plan areas since 1990-91. It can improve the standard of education at the primary level and reduce the burden of their parents from incurring expenditure on their children's education. Different facilities like school building, playground, and free kitchen, gender teaching material, furniture, dress, books and economic resources have been provided to motivate the tribal children and their parents towards education. Above all, firm determination with dedication of the teachers, government and community can make the Ashram school a role model like 'Shantiniketan' which can give sight to the educationally impaired, backward tribal children and empower the tribal to look at their problem in civil societies.

#### **1.1. Ashram School in Tripura**

Ashram Schools had been established by the Tribal Welfare Department which are run and managed by the Tripura Tribal Welfare Residential Educational Institutions Society. All the Ashram Schools are co-educational English Medium Schools.

I) 420 seated RMM Ashram School, Bhuratali, Sabroom, South Tripura

### ***Ashram Schools***

II) 300 seated RMM Ashram School, Kanchanpur, North Tripura

III) 200 seated RMM Ashram School, Ambassa, Dhalai

IV) 200 seated RMM Ashram School, Karbook, Amarpur, Gomati

The Ashram School also has equal number of boys and girls students in the classes from III to V. At present approximately 1000 nos. of ST students (Boys & Girls) are studying in those 4 (four) nos. of schools. The prime objectives of the Ashram Schools are to impart quality education to ST boys and girls students and also prepare them for various entrance/competitive examinations. The students are provided books, fooding, lodging, stationary, bed materials, furniture, school uniform, warm clothes games and sports materials, music activities at free of cost. Medical check-up, coaching in core subject, computer education and computer aided learning etc. are also provided with free of cost.

#### **1.2. Objective of Ashram School**

The objective of the scheme is to provide residential schools for Scheduled Tribes including PTGs in an environment conducive to learning to increase the literacy rate among the tribal students and to bring them at par with other population of the country. The scheme is in operation since 1990-91 and has been revised w.e.f. the financial year 2008-09.

#### **1.3. Salient features of Ashram School**

This is a centrally sponsored scheme and is operational in the Tribal sub-Plan States/UT Administrations. The scheme covers primary, middle, secondary and senior secondary level of education. Under the revised scheme, State Governments are eligible for 100% funding for establishment of Ashram Schools (i.e. school buildings, hostels, and kitchen and staff quarters) for girls in TSP areas and also for construction of Boys' Ashram Schools

### ***Ashram Schools***

in TSP areas in naxal affected areas (identified by Ministry of Home Affairs from time to time).

- Schools are fully residential and will have residential quarters for the teaching staff and also for some of the non teaching staff, as considered necessary.

- Both the categories of schools are co-educational English Medium Schools having primary sections (Ashram Schools) and secondary and senior secondary sections.

- Admission to the schools follows selection based on admission test. Admission test normally held in 1<sup>st</sup> week of March.

- Applications are invited through news paper advertisement in the month of February for wide application.

- School timings will be 8.30 am. to 1.30 pm. All the students live in the hostels.

- All the students are given boarding house stipend by Tribal Welfare Department at the rate of State Government rate. The existing rate is Rs. 41/- per student per day.

- School Uniform, shoes and socks, books and note books, pen and pencils are provided free of cost by the society.

- Cosmetics and tooth paste etc. and dresses will be provided by the parents.

- Set of winter uniform will be provided by the society free of cost. Set of physical education and games uniform will be provided by the society free of cost.

- Bed materials, bucket, dish etc will be provided by the society free of cost.

#### **1.4. Funding Pattern**

The scheme provides for 100 percent central financing for the construction of ashram schools for girls boys in naxal areas. The funding pattern for the other Boys' ashram Schools is on 50:50 basis, while maximum assistance is given to UTs for construction of both Girls' and Boys' Ashram Schools.

Financial assistance on 50:50 basis is given for other non-recurring items of expenditure i.e. purchase of equipment, furniture and furnishing, purchase of few sets of books for a small library for use of inmates of the hostels etc.

#### **1.5. Facilities in Ashram Schools**

The Ashram Schools of the State Governments/UT Administration are mandated to provide all necessary facilities like drinking water, bedding and mattress, good quality food, toilets, security arrangements, laboratory, library, sanitation, computer room, watchman, sweeper and health check-up of ST students etc. in the Ashram Schools. First aid boxes are being provide, regular pest control is being done.

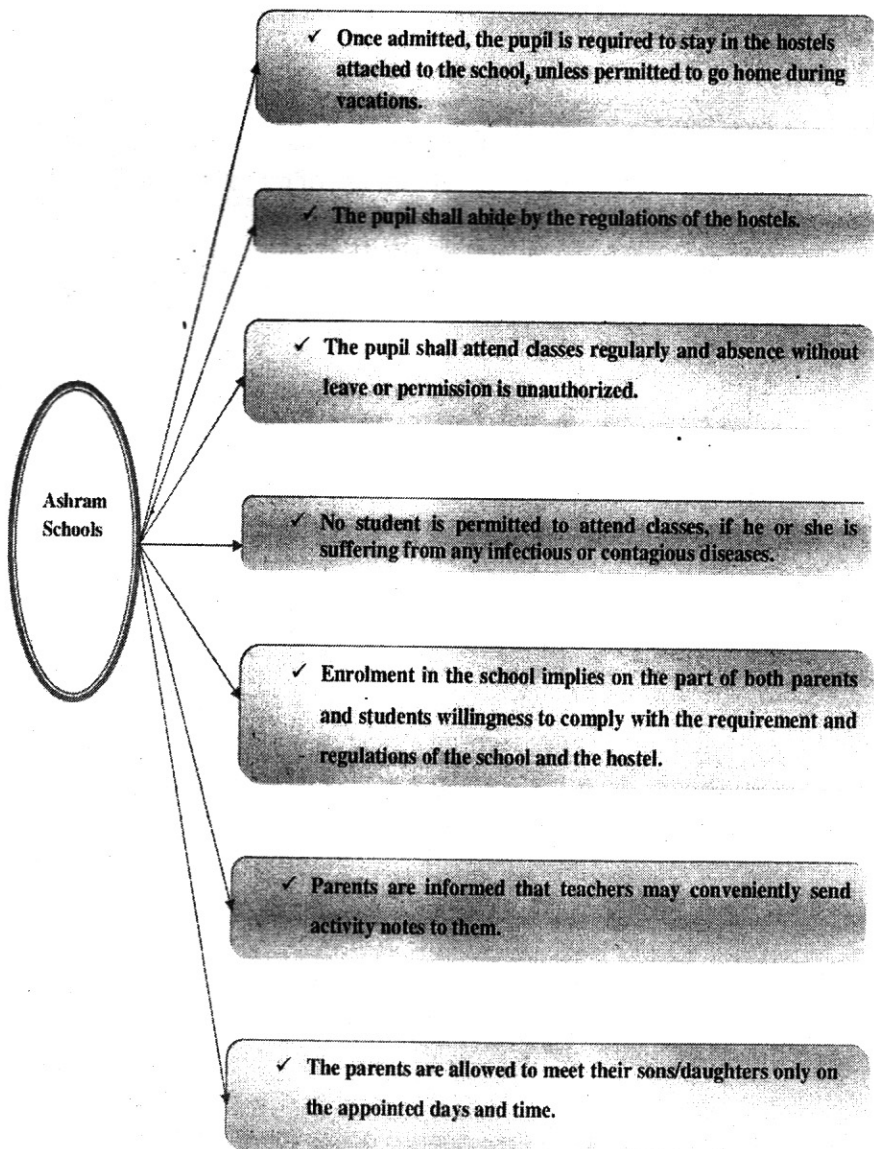

#### **1.6. Security of students in Ashram Schools**

The security arrangement for students studying in Ashram Schools especially in the naxal affected areas; the Central Government provides financial assistance for construction cost of Ashram Schools. The running and maintenance including security arrangement for studying in Ashram Schools especially in the naxal affected areas of the Ashram Schools are the responsibility of the State Governments.

#### **1.7. Monitoring Mechanism**

The Ministry monitors the scheme by receipt of physical and financial progress reports from the State Governments. The Ministry also conducts meetings periodically with States Governments/UT administration and officers of the Ministry also sometimes visit the projects. All the programmes of this Ministry are to be reviewed by the District Level Vigilance and Monitoring Committee constituted by the Ministry of Rural Development.

## 1.8. General Rules

### **1.9. Process of Internal Assessment**

Some marks will be kept allotted for internal assessment of the students and this will be assessed throughout the academic year. Assessment will be done on the following aspect:-

1. General attendance 80% and above. Attendance on special day e.g. Annual Sports Day, functions and on the days of observance etc.
2. Co-Curricular activities (Participation and presence)
3. Uniform and cleanliness.
4. Discipline, conduct and good behavior.
5. Use of English language while interacting with others in the school premises as well as in the hostels.

### **1.10. Syllabus for study**

Syllabus for study will be fixed by the authority and the books for the each class from Class-III to Class-V will be supplied by the Tripura Tribal Welfare Residential Educational Institutions Society's Authority in time before starting the academic session. Books will be served by the Principal/ Principal-In-Charge of respective schools by collecting from the member-secretary's office of the Tripura Tribal Welfare Residential Educational Institutions society.

The Principal/Principal-In-Charge will be responsible for complete the syllabus earmarked for the respective classes.

### **1.11. Examination Pattern**

1. a. Four unit tests will be done during the whole academic year.
1. b. 1<sup>st</sup> and 2<sup>nd</sup> unit test will be setup before half yearly examination.
1. c. 3<sup>rd</sup> and 4<sup>th</sup> unit test will be set up after half yearly examination.

### ***Ashram Schools***

2. a. Following marks is to be taken for consideration of promotion of the students.

2. b. 40 percent marks will be taken from FA-I to FA-IV examination.

2. c. 30 percent marks will be taken from SA-I examination.

2. d. 30 percent marks will be taken from SA-II examination to be calculated for promotion in next higher classes of each student.

Minimum marks for promotion to be higher class are 33 percent in aggregate. This should be strictly followed by all Ashram School without fail.

#### **1.12. Management**

The Ashram Schools will be maintained, controlled and managed by Tripura Welfare Department, Government of Tripura through a society called Tripura Tribal Welfare Residential Educational Institutions Society.

The management of society will be vested to the Board of Governors consisting of nine Ex-Officio members and twelve nominated members with the commissioner and secretary of Tribal Welfare Department, Government of Tripura as the chairman.

---

## RESEARCH METHODOLOGY

### 2.1. Objectives

- To study the infrastructural facilities and management of Ashram schools in Tripura.
- To study the socio-economic background of tribal students.
- To study the impact of Ashram school on tribal education.

### 2.2. Methodology

The study was empirical in nature and based on primary data collected through field survey. The study was analytical in its approach as it envisages reviewing critically the pertinent literature on the Ashram schools of tribal students. In order to analyze the data statistical tools and techniques, descriptive analytical methods were followed.

**Table 1 : School information**

## *Ashram Schools*

### **2.3. Sampling**

The study was confined to the four districts of Tripura namely South, North, Dhalai and Gomati. In order to conduct the study, purposive sampling procedure was adopted for the selection of Ashram schools students from four Ashram Schools. The districts have been selected based on the location of the schools for tribal students. From each 50 students were randomly selected for the field survey. Thus overall 200 students were covered for this study.

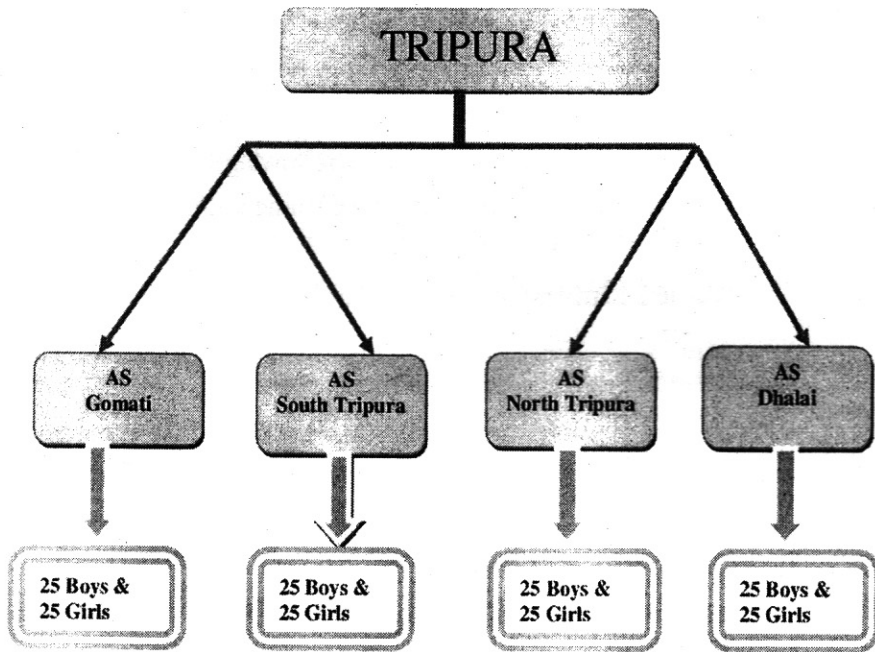

### **2.4. Data Collection**

The primary data was collected through communicated with the teachers, and students from different Ashram School. The field survey was conducted with the help of structured interview schedules and group discussion. Interview schedule was pertaining the relevant to the objectives of the study.

### **2.5. Data Analysis**

The filled interview schedule was thoroughly checked and processed with the help of relevant software. Relevant statistical tool was applied for drawing out result, conclusions and data analysis. Data was interpreted, discussed and analyzed besides critical appreciation of pertinent literature. Basic learning level of Ashram Schools was also tested through structured test tool which was followed by Annual Status of Education Report (2014) (ASER) for English reading level test, Arithmetic test & Bengali reading level test.

### 3.6. Sample Design

## RESULT & DISCUSSION

### Part I : School Administration

Good and sufficient infrastructure is very essential for any educational institution. It enables the learning environment. The following table is a glimpse of different types of infrastructure available in the studied schools.

**Table 2 : Infrastructure available in school**

| Infrastructure      | RMM Ashram School South                                         | RMM Ashram School North                                          | RMM Ashram School Dhalai                                        | RMM Ashram School Gomati                                        |
|---------------------|-----------------------------------------------------------------|------------------------------------------------------------------|-----------------------------------------------------------------|-----------------------------------------------------------------|
| Land Amount         | 29 acre                                                         | 8.09 acre                                                        | 10.55 acre                                                      | 20.62 acre                                                      |
| Play Ground         | Yes                                                             | Yes                                                              | Yes but not suitable for practice                               | Yes                                                             |
| Garden              | Yes                                                             | Yes                                                              | Yes                                                             | Yes                                                             |
| Building type       | Pucca                                                           | Pucca                                                            | Semi Pucca                                                      | Pucca                                                           |
| Boundary wall       | No                                                              | Yes                                                              | Yes                                                             | Yes                                                             |
| No. of class room   | 6 class rooms                                                   | 6 class rooms                                                    | 10 class rooms                                                  | 6 class rooms                                                   |
| Boys Hostel         | Yes                                                             | Yes                                                              | Yes                                                             | Yes                                                             |
| Girls Hostel        | Under construction                                              | Yes                                                              | Yes                                                             | Yes                                                             |
| No. of hostel rooms | Total- 22 rooms, Boys hostel rooms-14 and Girls hostel rooms-8. | Total- 20 rooms, Boys hostel rooms-10 and Girls hostel rooms-10. | Total-72 rooms, Boys hostel rooms-36 and Girls hostel rooms-36. | Total-73 rooms, Boys hostel rooms-39 and Girls hostel rooms-34. |

Source- Field Survey, 2016

The major findings from the table are as follows -

- The school campus of Ashram School (AS) has buildings for schools, hostels, dormitories and residential quarters.
- Schools were having some space for playing, but the size was very small and not suitable. Apart from these, schools don't have the playing material also.
- Class rooms of Ashram School were insufficient.
- Among the four Ashram schools, South Tripura AS doesn't have the boundary wall and it seems the lack of security among the students due to unavailability of boundary wall in the AS. In addition to this, schools don't have the provision of separate hostel for the students and girl students was accommodated on the first floor of the school building.
- In some cases, quarters were also not sufficient for teachers and other staffs. For example teachers and other staffs of North Tripura AS were accommodated in the classroom.
- Electricity was available in the ASs but insufficient electric equipments and power cut was the main problem.
- Bathrooms and toilets were inadequate and windowpanes were also not clean. Supply of water was irregular. Supply of utility water was insufficient for cleaning, washing, bathing and other purpose.
- In terms of medical facility, all the schools have only first aid kit box for the primary medicare of the students.

**Table 3 : Student Enrolment and Performance**

| Components         |         | RMM AS South |     | RMM AS North |      | RMM AS Dhalai |     | RMM AS Gomati |     |

Source- Field Survey, 2016

- From the above table it may found that every year enrollment of students had increased in all the schools except Dhalai district AS. Enrollment of girl students was less in compare to boys.

- The general performance of AS was found satisfactory. All the children were passed with good number. Whereas, North Tripura district AS classes needs some improvement.

- During admission, school authority used to collect several documents like B.P.L Card, Caste certificate, Last year mark sheet etc.

- Each and every AS used to celebrate the national holidays and also motivate the student for participating. Parents were also invited for this. Ashram School used to provide yearly holidays like 24 days for summer vacation, 10 days for puja holidays and 10 days for winter vacation.

**Table 4 : Social and Gender Composition of the Teachers**

| Sl. No. | Name of School | ST |   | SC |   | OBC |   | GENERAL |   | Total |   | Total |
|---------|----------------|----|---|----|---|-----|---|---------|---|-------|---|-------|
|         |                | M  | F | M  | F | M   | F | M       | F | M     | F |       |
| 1       | RMM AS South   | 2  | 2 | 1  | 3 | 1   | 1 | 1       | 1 | 5     | 7 | 12    |
| 2       | RMM AS North   | 1  | 1 | 0  | 0 | 1   | 1 | 4       | 1 | 6     | 3 | 9     |

| 4       | RMM AS Gomati  | 1  | 3 | 1  | 0 | 1   | 0 | 3       | 1 | 6     | 4 | 10    |

Source- Field Survey, 2016

- Table 4 describes the number of teachers in all the Ashram Schools. Approximately 40 percent teachers were belonged to Schedule Tribe category in AS. Teachers were selected through the interview. Preferences were given to the teachers those who were having a degree of B.Ed and belonged from English medium background. The number of female teachers was more than the male teacher. The teacher's workload was moderately heavy. As all the schools were residential schools, for that most of the teachers were involved in meeting management, academic decision related activities.

- Remuneration of teachers was based on the government rules. Teachers were praised and rewarded for their achievements.

- Continuous Comprehensive Evaluation training programmed was conducted for teachers. All the teachers enjoy the equal status.

**Table 5 : Teacher student ratio**

| Sl. No. | Name of Schools                  | Teacher student ratio |
|---------|----------------------------------|-----------------------|
| 1       | RMM Ashram School, South Tripura | 1 : 14                |
| 2       | RMM Ashram School, North Tripura | 1 : 22                |
| 3       | RMM Ashram School, Dhalai        | 1 : 24                |
| 4       | RMM Ashram School, Gomati        | 1 : 13                |

*Source- Field Survey, 2016*

• Table 5 reveals about the Teacher student ratio in Ashram school. Every school having a good number of teachers. In Gomati district teacher student ratio was a bit less compare to other districts.

## **Part II : Management**

### **3.2.1 Monitoring Process**

- All the Ashram Schools are monitored by the Tripura Tribal Welfare Residential Educational Institutions Society.
- Schools were regularly monitored by the teachers and staff under supervision of Principle-in-Charge as per the school timetable.
- Hostels were supervised by the respective hostel superintendent.

### **3.2.2 Achievement**

- Some students of Ashram School have been selected for technical course and medical course through joint entrance examination (JEE) after higher secondary education .

### **3.2.3 Major Problem**

- South Tripura AS was not affiliated to CBSE for which after class-viii, students need to be transferred to another school. Separate rooms for

library cannot be provided. They don't have any math teachers.

- Shortage of water was the major problem of all the AS.
- Less numbers of teaching equipments was the problem of Gomati district AS.

### **Part III: Impact on Tribal Education**

**Table 6: Gender Composition of respondents (sample students)**

| Sl. No | Gender       | No of respondent | Percentage |
|--------|--------------|------------------|------------|
| 1      | Boys         | 100              | 50         |
| 2      | Girls        | 100              | 50         |
|        | <b>Total</b> | <b>200</b>       | <b>100</b> |

*Source - Field Survey, 2016*

- From the above table it has been found that the number of girls and boys respondent were same.

**Table 7 : Economic Category of the Student's Family**

| Sl. No | Categories   | Boys                 | Girls                | Total                |
|--------|--------------|----------------------|----------------------|----------------------|
| 1      | BPL          | 100<br>(100)         | 99<br>(99.0)         | 199<br>(99.5)        |
| 2      | APL          | 0                    | 1<br>(1.0)           | 1<br>(0.5)           |
|        | <b>Total</b> | <b>100<br/>(100)</b> | <b>100<br/>(100)</b> | <b>200<br/>(100)</b> |

*Source- Field Survey, 2016*

- According to the primary survey of Ashram school, 199 families were i.e. (99.5%) were from BPL category while remaining 1 family were from APL category.

**Table 8 : Religion of the students**

| SL No | Religion  | Boys         | Girls        | Total         |
|-------|-----------|--------------|--------------|---------------|
| 1     | Hindu     | 50<br>(50.0) | 51<br>(51.0) | 101<br>(50.5) |
| 2     | Christian | 39<br>(39.0) | 35<br>(35.0) | 74<br>(37.0)  |
| 3     | Buddhist  | 11<br>(11.0) | 14<br>(14.0) | 25<br>(12.5)  |
| Total |           | 100<br>(100) | 100<br>(100) | 200<br>(100)  |

*Source- Field Survey, 2016*

- Considering the Religious status among the total respondents, it was mentioned that more than 50 percent students were from Hindu community while only 12.5 percent were from the Buddhist community.

**Table 9 : Age wise gender distribution**

| Sl. No. | Age Group (in years) | Boys         | Girls        | Total         |
|---------|----------------------|--------------|--------------|---------------|
| 1       | 6-10                 | 23<br>(23.0) | 28<br>(28.0) | 51<br>(25.5)  |
| 2       | 11-15                | 75<br>(75.0) | 72<br>(72.0) | 147<br>(73.5) |
| 3       | 16-20                | 2<br>(2.0)   | 0            | 2<br>(2.0)    |
| Total   |                      | 100<br>(100) | 100<br>(100) | 200<br>(100)  |

*Source- Field Survey, 2016*

- Table 9 indicates that more than 25 percent student of the Ashram school were from the age group of 6-10 while 73 percent students were from 11-15 years of age group. It seems that maximum number of students were from this (6-10 years of age group) category. In between girls percentage comparatively higher in Ashram school to boys.

**Table 10 : Family Types**

| Sl. No. | Category     | No of Respondents | Percentage |
|---------|--------------|-------------------|------------|
| 1       | Nuclear      | 76                | 38.0       |
| 2       | Joint        | 124               | 62.0       |
|         | <b>Total</b> | <b>200</b>        | <b>100</b> |

Source- Field Survey, 2016

- Above table represents that, 38 percent respondents belonged to small sized families consisting of two to four members that is nuclear family and rest 62 percent respondents belonged to joint family consisting of five to eight members.

**Table 11 : Occupation of the Main Guardian**

| Sl. No. | Occupation     | No of respondents | Percentage |
|---------|----------------|-------------------|------------|
| 1       | Farmer         | 137               | 68.5       |
| 2       | Agri Labor     | 16                | 8.0        |
| 3       | Service        | 27                | 13.5       |

| 3       | Learning activities are managed effectively           | 18<br>(9.0)    | 178<br>(89.0) | 4<br>(2.0)   | 0                 |
| 4       | Teaching delivery is easily understood                | 22<br>(11.0)   | 154<br>(77.0) | 24<br>(12.0) | 0                 |
| 5       | Teaching materials/ aids used in the learning process | 20<br>(10.0)   | 111<br>(55.5) | 64<br>(32.0) | 5<br>(2.5)        |
| 6       | Encouraged to ask questions/ to express opinion       | 22<br>(11.0)   | 178<br>(89.0) | 0            | 0                 |
| 7       | Helpful                                               | 46<br>(23.0)   | 153<br>(76.5) | 1<br>(0.5)   | 0                 |

Source- Field Survey, 2016

- Among all the respondents it was found that maximum numbers of students were strongly agreed to the illustration of topics, teachers always encouraged them to ask questions about their problems and the teachers are were much helpful. Students were also agreed that, teachers always used to explain all the topics clearly.

- But in learning activities managed aspects, few students were disagreed about this. Some students could not understand teaching delivery easily and maximum numbers of students were also disagreed that teaching material was not used in the learning process for their better education. Schools had no properly sized classroom, air circulation, lighting, fan etc.

**Table 19 : Impact assessment of teaching learning environment**

*Source- Field Survey, 2016*

- For getting a specific picture of the student's satisfaction it is necessary to know their level of satisfaction through various satisfaction indicators. From table 22, it has been found that, because of residential school students lived without their family members and as a result they need good friends and they were highly satisfied with their fellow friends. They support each other and more if they were from the same village. They also take care each other during their ill-health.

- Maximum numbers of students were also satisfied from the school environment, teacher's behavior and staff's behavior with them. Students were less satisfied with food and accommodation related issues viz maximum rooms were not clean, more number of students accommodated in single room, required numbers of light, fans were also not available in rooms. In addition to this, students also said that food was not good and they had to

eat the same type of food daily. The quantity and quality of food is very much essential. Dining halls were also not fully furnished. Students were not satisfied for poor sanitation facility and drinking water. Bathrooms and toilets were inadequate. Students also need fresh water for drinking purpose.

**Table 23: Gender Wise Rank on Level of Satisfaction**

Source: Field Survey, 2016

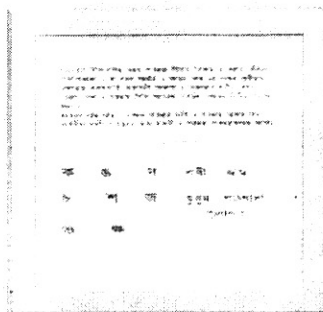

- Above table describes the Gender wise rank on level of satisfaction of the students. As the Ashram School is a residential school so the students were depended on each other and they were living without their family members that's why they were highly satisfied with their friends. They support each other and more if they are from the same village and take care during their ill-health. Maximum numbers of students were also satisfied from the school environment, teacher's behavior and staff's behavior.

**Part IV : Basic learning level test through Bengali reading**

**Table 24: Bengali reading level of students  
(Multiple Respondents)**

| Category | Not even letter | Letter        | Word          | Para         | Story       | Total Respondents |
|----------|-----------------|---------------|---------------|--------------|-------------|-------------------|
| Boys     | 4<br>(5.3)      | 71<br>(94.7)  | 49<br>(65.3)  | 22<br>(29.3) | 6<br>(8.0)  | 75<br>(100)       |
| Girls    | 9<br>(12.0)     | 66<br>(88.0)  | 51<br>(68.0)  | 26<br>(34.7) | 6<br>(8.0)  | 75<br>(100)       |
| Total    | 13<br>(8.7)     | 137<br>(91.3) | 100<br>(66.7) | 48<br>(32.0) | 12<br>(8.0) | 150<br>(100)      |

**Figure: 6**

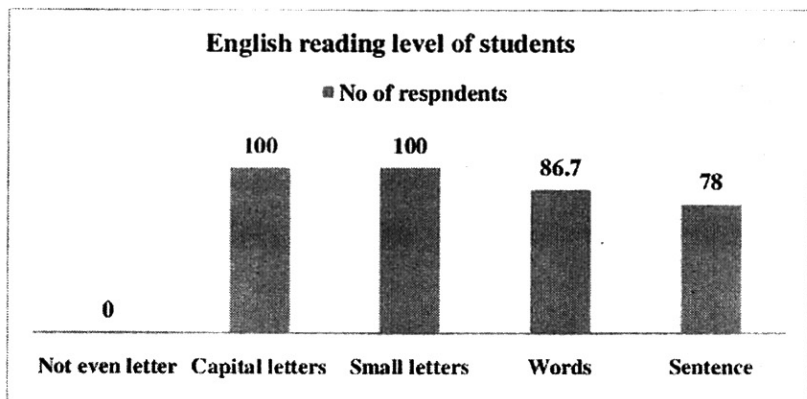

- The above table describes the highest level in arithmetic achieved by students of Ashram schools who are read in Std-III. 10.7 percent boys and 14.7 percent girls were not recognizing any number properly. 87.3 percent students were recognized numbers. Only 48 percent students can do multiplication.

**Table 26 : English reading level (Multiple Respondents)**

| Category | Not even letter | Capital letters | Small letters | Words         | Sentence      | Total Respondents |
|----------|-----------------|-----------------|---------------|---------------|---------------|-------------------|
| Boys     | 0               | 75<br>(100)     | 75<br>(100)   | 69<br>(92.0)  | 61<br>(81.3)  | 75<br>(100)       |
| Girls    | 0               | 75<br>(100)     | 75<br>(100)   | 61<br>(81.3)  | 56<br>(74.7)  | 75<br>(100)       |
| Total    | 0               | 150<br>(100)    | 150<br>(100)  | 130<br>(86.7) | 117<br>(78.0) | 150<br>(100)      |

Source- Field Survey, 2016

**Figure: 7**

- The table shows the highest level in reading English achieved by students. In Std III all the students could read capital letters similarly small letters. 86.7 percent students could read words but not sentences while 78 percent students read sentences.

## **PROBLEMS (ISSUES) RECOMMENDATION & CONCLUSION**

**1. Issues of Accommodation :** Students used to stay in class rooms and the girls were accommodated in the school building of Ashram School. In North Tripura district teachers and staff were accommodated in class rooms. Teacher's quarters were not sufficient. Teachers and staff were accommodated in the boys' hostel in South Tripura district AS. Various infrastructural problems were faced by the students such as leakage in water pipeline, windows are not well furnished.

### **Recommendation :**

- Management committee should take necessary steps to equip the infrastructure.
- Maintenance grants should be increased and also need to recheck the full infrastructural equipment by monitoring committee time to time.
- Hostel needed to be more equipped with sufficient equipments, well ventilated rooms & wash rooms.
- More staff quarters for teachers and staffs need to be constructed.
- Boundary wall should be constructed for safety and security of girl students particularly.

**2. Issues of various facilities :** Bathrooms and toilets were inadequate and windowpanes were not clean. Supply of water was irregular. Supply of utility water was insufficient for cleaning, washing, bathing and other purpose.

Maximum numbers of schools were far away from a hospital. So at the time of emergency the students were facing several problems.

**Recommendation :**

- Adopt some methods of writing some important contact numbers like ambulance number on a notice board for an emergency period, which can easily help the students in an emergency.
- Thermometer, cotton, Dettol, ointments and tablets should be included in first aid box.
- Doctors of nearby PHCs should visit in these schools on every month. Department of Tribal Welfare may jointly address this issue with the Department of Health and Family Welfare (under NHM)
- Number of toilets should be increased. One staff should be engaged to clean hostel rooms, toilets and bathrooms frequently.

**3. Issues related to Lack of interesting things which can inspire the students :** All schools have playground, but it was not suitable for practice and small in size. Sports room, playground and other playing materials like football, cricket ball, bats etc. were not available in all the schools. Students were also not attached to any kind of extra curriculum activities.

**Recommendation :**

- Playing equipment, television and computer are necessary in all the schools which can entertain and can keep them updated.
- Educational provision through vocational education is needed to be strengthened.
- Vocational craft oriented education must be imparted to the students. Physical exercise, physical training should be imparted regularly.

### ***Ashram Schools***

**4. Issue related to Improvement of Teaching Methodology :** The students were fully dependent on class lectures in school and sometimes which were not sufficient for them ,but there was no coaching center attached with hostel and school. Most of the students belonged to a poor family, so they could not afford private tuition as well. Maximum students were not understood teaching delivery easily and maximum numbers of students were also agreed that teaching material was not used in learning process for their better education.

#### **Recommendation :**

- Schools should recruit more tribal teachers for better understanding of the students.
- Teachers should take classes with the help of using learning aids like chart, models, through group discussion.
- Supplemental, remedial classes and special coaching classes for poor students, improvement of subject experts should be promoted.

**5. Issues related to fooding :** Students were not satisfied with the food. Dining halls were also not fully furnished.

#### **Recommendation :**

- The quantity and quality of food is very much essential for students. Fund allotment for fooding and lodging should be increased for serving healthy food.

**6. Issues related to Basic learning level :** Students of Ashram schools who read in Std III, the basic learning level was not so much good in reading and arithmetic subject. Some students could read words but not sentences.

Some girl students were not recognizing any arithmetic number properly.

**Recommendation :**

- Students should need proper guidance for improving their studies.
- Maximum exposure to the tribal children can give them the opportunity to excel in their skills.

**Conclusion :**

Backwardness in education is an important cause for economic backwardness. Both the central government and state government put greater importance to economic progress of scheduled tribes. Government of India realized that, unless the quality of education is substantially improved in the tribal areas, some of the serious issues involved with employability and subsequent performance of tribal youths cannot be addressed. It was felt that tribal children suffer from various problems and social disadvantages. They lack self confidence and this can only be resolved by providing the best possible quality education. Keeping in view of these objectives, the ministry of tribal affairs has implemented the scheme of establishing AS. Tripura state has four Ashram School.

Over all Ashram Schools were doing very well for better future of tribal students in Tripura. Ashram School scheme supports the establishment and running of quality residential schools for scheduled tribes (STs) students with an objective to provide quality education to the tribal students. Ashram Schools are starts at class III. Education in AS is entirely free.

Large number of tribal parents withdraws their children from schools because of money problem. Other reasons include help of children in domestic work and for taking care of siblings has been reported as the main cause of school dropout and this was applicable more for girls than for

### *Ashram Schools*

boys.

After establishment of Ashram schools it was found that the standard of education at the primary level had improved and also reduced the expenditure of parents on their children education. Different facilities like school building, playground, and free kitchen, teaching material, furniture, dress, books and economic resources have been provided to motivate the tribal children and their parents towards education. All those schools were specially designed to suit children of tribal background to attain better education.

Ashram school playing a very convenient role for the development of Tribal education in Tripura. The present study mainly discuss about the overall situation of Ashram schools in Tripura including teacher, quality of education, level of participation, residential facility etc. The objective of the study was to know overall impact of the study to the tribal students .These school needed some infrastructural improvement in infrastructural and learning methods. The environment in the schools and hostel should be improved for better education.
