This is a letter preferred by the Police Radio Officer, Andaman & Nicobar Police, Port Blair. This letter is in response to AAJVS letter dated 9.9.2005 requesting for re-establishment of Police Radio Centre at Dugong Creek.

The PRO informed that one of their staff was deputed to Hut Bay to find out the present status of the state of existing antenna installation and the building where in the PR is now to be housed. Accordingly, he along with Social Worker of Dugong Creek went to Dugong Creek and furnished a report which says that the facilities available now at Dugong Creek is very much inadequate. It is therefore requested that the building to house PR, electrification and drinking water facilities etc may please be made available so that we may depute our staff with equipment.

In the light of the above observation of the PRO, it is proposed that we may direct Social Worker, Dugong Creek to inform the position of buildings in use at Dugong Creek and also to extend full support to re-establish the PR operations again at Dugong Creek.

- In light of the above observation
- A Type-II Quater (Separate) be allotted to PR
- One Sanitary Unit
- Type II Quater be allotted to ANM which can be used as Medical Sub-Cent & for accommodation
- One Sanitary Unit Type-II Quater be allotted to Teacher

Executive Secretary,  
AAJVS
