VISIT OF LOP LOUIS IN LET-BAY

dt- 24/12/2011 at 10:00 hrs

165

Visited this LOP today with Mr. P.K. Abdul Aziz SHO P.S. Mayabunder. and Mr. Anup Kumar Mondal. & Two AAJS Kadamtalla.

This was initially established as a JPP but later converted to LOP as it in fact serves the dual purpose.

But augmentation of some infrastructure is required. the well for drinking water needs to be little repaired and cleaned. If a 1.5 HP motor with flexible pipe is provided and a 1,000 (thousand) litre capacity water tank is installed. it shall be a good facility to staff - working in such remote location.

The radio set is also not functional. one fibre boat provided to LOP is also reported to be presently under repair.

This LOP caters to the need to Jarawa movement mainly but ~~no~~ record is being maintained. Advised with format also drafted and give to incharge Gopal chander Mistry Head constable to maintain a register. A binocular will also be installed for watching Jarawa and poachers.

Earlier, one staff of AAJS was also deployed (posted) on rotation (Monthly) which has been discontinued for the last few years. Two of our staff needs to be posted on monthly or 45 days rotation.

The team of I+9 appeared to quite active and dynamic.
