NOTE

About 74 No. of Onges at present are staying in a mini stadium at R.K.Pur in the near vicinity there is camp of non-tribals (consisting of 160 families of Netaji Nagar). It is not at all desirable to keep the aboriginal tribe Onges with in a distance of hardly 150 mtrs. from non-tribals. Self discussed with the local revenue officials and it has been informed that suitable hillock has been identified near Dugong Creek which probably is suitable to shift all these Onges.

In view of this, it is required that the Executive Secretary, AAJVS should himself or his authorized representative go to the place, identify the site and finalize the location as well as ensure shifting of all these Onges in a secure place immediately.
