

Most importantly on the same day reportedly at about 0900 hrs near the Jarawa hut of R. K. Nallah from an ambassador car bearing No. AN 988 the Jarawa boy took away a hand bag of a tourist namely- Shri Naveen from Bihar and disappeared which contained a camera and some amounts. Some of the Jarawas have now well recognised the value of currency prevailed in the strong so-called civilized society. This is not a good sign in the administrative favour. It indicates the future possibility that they may live like the Criminal Bhil tribes of mainland India who being armed on national highways stop the vehicle and loot the belongings of the passengers and run behind the thick bushes. An appropriate step is immediately to be taken with great care to stop this. It is suggested further that the food items in adequate quantity should be distributed to the Jarawas at certain interval of days from certain contact points.

Yours faithfully,

(Dr. Pronob Sircar)
