

different sps of plants and corals.

From Kadamtila it took more than $1\frac{1}{2}$ hours to reach the Foul Bay (reached around 8 AM). The Captain has given the 'horn' from the ship. Up to 8.45 AM we are not able to see any Jarawa in the Foul Bay Coast after ~~an~~ 15 minutes we find two Jarawas. The Captain again given the horn and the ship was taken along the coast of Foul Bay. After half an hour we have seen a group of females and children welcoming us by waving the hands from the coast. Male Jarawas were absent at that time. ~~That~~ Here I would like to bring one observation i.e. the female and children are mainly ~~depend~~ ^{ad food gathering} collect the sea food. The ^{men} ~~Men~~ generally go into the deep jungle for a big game, because of this reason, it took more than one hour for the male jarawas to come and join with us.
