

for adult males and 41.5 kg to 55.0 kg and 138.5 cms to 151.5 cms for females respectively. Mid-upper arm circumference was observed to be in the range of 23.5 cms to 29.5 cms in adult males and 24.4 cms to 29.1 cms in adult females.

An attempt was also made to collect information on fertility and child mortality with the help of linguist, Dr. Raja Singh. No married woman was found to be infertile. From the preliminary data available from enquiry, child mortality seems to be very high among them.
