

times not to give exotic items to the Jarawas whenever they comes as the Samiti makes all arrangements to give them the gift items suited to them. It is the so-called civilised people who are doing the wrong thing despite of warnings and appeals. The Samiti and Police are taking all efforts that the people do not contact with the Jarawas and give them exotic items.

6. Now a days, the Jarawas are coming out on ATR road and they get into the vehicles. The people offer them the exotic food items. It has already been published in the Newspaper that nobody should give exotic food items to the Jarawas. The Jarawas are innocent human being and they are not aware of begging and borrowing. It is the fault of the civilised people who offer them food items. The Jarawas are primitive tribes far away from the civilised world and they have no habit of begging which is an evil of civilised society. The AAJVS has arranged regular patrolling in the area by the staff of AAJVS with police to regulate the movement of Jarawas and to ensure that they are not contacted by the civilians and the civilians do not give them exotic food items, clothes etc. Everyday the AAJVS makes arrangement to provide gift items to the Jarawas when the staff go for patrolling in the area.
7. The contention that the Jarawas worked with the PWD workers at Potatang in ATR road also seems to be fictitious. The Jarawas are very innocent and they have the nature of helping others as it is experienced that when the Jarawa contact team go to the habitat to their to plant seedlings of fruit crops, they also participate enthusiastically and show interest in plantation.
