(b) Physical features : Apparently seemed same as Jarawas.

- One old lady with no grey hair.
- Black hairs. Very few public hair in males.
- One male with few moustache hair and beard but no gray hair.

(c) Health and Nutrition:

- Good Health.
- Did not like bananas, so threw it.

(d) Material culture- Artifacts and Behavioural observation:

A hut seen on shore at 0730 hrs. We landed there. Fresh foot prints were seen but no sentineles was there. It was small lean type hut on the ground. (Photograph)

- One Ash mound was there.
- Broken sea shells were scattered around the hut.
- Jaw of a pig was hanged inside the hut. (Photograph)
- One bow without string was lying outside the hut.
- a fallen hollow tree had ash contents. (Photograph)
- flattened fresh leaf apread bed.
- Left 25 coconuts there.

Around 500 Mtrs. away another hut sighted. Similar hut but slightly bigger.

- A ANVIL was lying there and (Photograph)
- Fresh thin ballies were kept there.
- One marine plywood was kept on the thached roof of hut
(Photograph)
- Round leaf ornaments were kept hanging on front pole ends of huts.
- One big trigger Canoe (Photograph)
- One small broken Canoe
- 4 mounds of ashes.
- One bed of leaves under the shade of trees
- broken sea shells scattered all around
- two small aluminium bowls with traces of some burnt sea food and eaten orange coloured small size pandanus fruit eye. (Photograph)
- One more canoe was seen lying on the rocks, Whose outrigger seemed to be new.
