- There was one more heap covered with leaves, when asked he said "Nada" perhaps something to eat.
- No coconut trees were sighted.
- A few ringed ornaments with threads were hanged on trees (Photograph)
- Waist bands painted with some red colour were also hanging on the tree branches, and were there in the huts also. (Photograph)
- Came our back the host brought us from the coastal path. But about 200 Mtrs. near the contact point he ran away from us and got mixed up with other Jarawas.
- On our return to contact point 3-4 Jarawas came to us and asked " Chada (Hut) dede " ? Chada dede ?
- One important thing observed this time was that on reaching shore they jumped on boat to snatch Red Cloth first and not coconuts/ Bananas.
- Another curious thing noticed was that when one boatman went for urinal near a tree a few Jarawas including females ran towards him and very curiously watched him urinate.
