(c) Health :-

- i. Teeth - Oral Hygiene very poor.
colour thick yellowish.
- ii. Skin - Patches, fungal infection on the skin. Skin was thick at the place of partially healed wounds.
- iii. Eye - Some suffering from conjunctivites. One old lady with right eye damaged.
- iv. One pregnant lady was observed by Shri A. Justin.
- v. One male with Right forearm amputated and bandaged with leaves & cloth. Did not allow to open the bandage. The bandage was reported to be thin as compared to what it was during Dec. Contact.

(d) Physical features :-

- i. Hair - Dark shining skin.
- ii. Skin - Curly black hair, grey hair in two old persons, body hair not seen including arm pits, pubic hair and even moustache. Very few moustache hair in very old people, with one or two grey hair in between.
- iii. - Steatopygia prominent only in a few females.
- iv. - Sex-differentiation from face especially among the youngs was difficult.
