(166)	<p>The Group of Expert constituted by the A &amp; N Administration in association with AAJVS is conducting a research on collection of empirical data on the Jarawas. As per their suggestions of the Group of Expert 05 nos hotspots have been identified as a delivery centre for the Jarawas. The identified locations for the hotspots are at Tirur, Jhaukona, Bada Balu, Lakra Lungta and Louis inlet Bay etc. For the construction / establish the hotspot, AAJVS needs to some forest produce like bamboo, bullies etc.</p>
(167)	<p>During the Executive Council meeting of AAJVS held on 19.04.2013, this issue was discussed in detail and directed to construct the hotspot on the above places immediately for better delivery mechanism based on the movement of the Jarawas.</p>
(168)	<p>The matter was discussed the Director (TW) and directed to send a letters to DFO (South and Middle Andaman) for necessary <del>permission for cutting</del> <sup>information for cutting</sup> a minor forest produce for construct the above hotspot immediately.</p>
(169)	<p>Accordingly, if approved, the draft letter is added for approval please.</p>
(170)	<p>Submitted please.</p> <p>6/5/13 Adf(04)</p>
