

5. Jarawas are continuously demanding for the utensils like Dekchi, Daw, Clothes(specially for ladies), Tarpauline , Bucket and every household items they looted so it seems the amenities you are providing either not of good quality or insufficient, so distribution should be done in present of Pradhan so that the inner voice of this Jarawa tribe can be heard or understood by Political representative there, to whom they are demanding again and again in high hope.

So, I am requesting to consider my points to prosper not only villagers but also Jarawa tribe for whom we the villagers also have sympathy.

At last but not least, I want to inform you that if compensation will not be provided this time to villagers then villagers can lose trust from us and may go for agitation any time and in slight provocation which will be harmful for your as well as our efforts to sort out the solution of Buffer Zone chapter.

Thanking You

Yours faithfully

  
**Mohan Halder**
