

5. Sometimes, they entered in their bath room & take bath. The settlers are feeling unsafe under such circumstances.
6. There is need to order for a discreet enquiry to know the facts behind such incidents and involvement of the staff of AAJVS/Tribal Welfare since the entire looted property is sold through them only and according to credible information, Tobacco, IMFL, Sukha & Zarda which being used by the Jarawa people are provided to them. It is bitter truth for the AAJVS/Tribal Welfare Department, A&N Admn.
7. Where huge budget/fund goes? Why not sufficient coconut, banana & papaya were provided to them which they like to eat? Why not plantation for same is provided in their habitats?
8. The Jarawa people are citizen of India. Their children need education & proper care with balance measures & natural habitats too so that the generation could develop in their socio transition. The A&N Admn. has proved itself a wild mother in the case of dealing other primitive tribes of A&N Islands too such as Andamanes, Ongis & Nicobaricees once they came into friendship.
9. Why concealment of crime & criminal facts by the police? Why not FIR when affected persons reported to the Police? When they were hostile, the police used to register cases in such reports.

We do hope that your administration would be able to call a spade-spade and take all appropriate steps to apprise the Govt. of India & Hon'ble Court about changed in food habits, understanding hindi language, involvement in such loot incident by Jarawa people.

Thanking you,

Yours faithfully,

(Shyam Singh Yadav)
Working President
Rastriya Janata Dal
