

:2:

The complaint against the intruder needs proper investigation and trial under the provision of PAT Regulation.

In this context, it is observed the instant violation of the PAT Regulation in relation to the Jarawa tribe has taken place at one of the 'hot spots', i.e., Bada Balu falling in the Jarawa reserve identified during the course of ongoing empirical study of the Jarawa tribe.

Further the law enforcement machinery (Police contingents) deployed for protection of the Jarawa tribe is required to be fully geared up to keep strict vigil and to focus patrolling particularly on the 'hot spot' so that such illegal activities do not recur in future. The outcome of the present investigation may kindly be sent to this Department for onward submission to the Administration. The stage of the criminal cases filed against Shri Narayan Roy may also be intimated to this Department.
