

8 Jarawas were shifted to Tirur (Male-3, Female-3 and children-2) and 5 male Jarawas went for Hunting at Forest near Jirkatang No.7 and returned unsuccessful.

Therefore, they collected 8 to 10 nos. of coconut from the plantation and this is also found that in this season Jack Fruits are unavailable.

Date: 25/10/13

Yours faithfully,

M. Janagi
