were requested to pass this information to the other members of their community for mass awareness among the Jarawa Tribe.

On the question being asked by the undersigned to the Jarawas to the reason which lead them to come out of the jungle to Civilian area, Jarawa Shri Topoe told that they don't get sufficient food from jungle as such to satiate their hunger they are forced either to involve in barter system with fishermen or to do theft. He further clarified that they are solely dependent on hunting and forest produce for their livelihood. Sometimes they get food and sometime don't as a result their family suffer a lot. It is their hunger and starvation that forces them to the Civilian area in search of food items. They generally collect bananas, jackfruits, honeycomb and sometimes dah from civilian area.

*Undersigned made a query that bananas, honeycomb are available inside Forest then why Jarawas do come out to the Civilian area. Shri Topoe added that these items are very low in the jungle which is not sufficient for their family as such they come out of the jungle. Further Dah is being taken to utilize it for collecting food inside jungle.*

Jarawa Shri Topoe told that if he would be given uniform then he will prevent the wrong things which is now been going on and he will instruct others to refrain from such activities. He has shown keen interest in this matter.

*This matter could be taken on the same footing as Student-Police Cadet but need a deliberation.*

*Undersigned asked Jarawas whether they are interested to cultivate if given proper training and land in the forest.*

Jarawa Shri Topoe told that in earlier occasion they did cultivate the coconut trees but the cultivation was poor as such all trees dried up and thereafter they have not been provided with any saplings.

Jarawa Chaduatom informed that they need food. If Govt. gives seeds/saplings they will cultivate it and will not come out of the jungle as the food would be available for them. All Jarawas supported and appreciate the idea.

Further jarawas were asked whether they get any food items from Government, all the Jarawas spoke in unison that they don't get anything from Govt. inside Forest but they do get food items whenever they are admitted to the Hospital.
