Meeting was chaired by Deputy Inspector General of Police, Nodal Officer ATR and the issues discussed and decision taken as under:-

Sl No.	Observations	Action
1.	Presently there are four timings of convoy system on ATR. With increase in No. of vehicles the distinction between four convoy will start getting blurred and perhaps there will be a continuous flow of vehicles from 6 AM to beyond 6 PM. Hence a strategic planning is required either to curb the No. of vehicles in each convoy or the whole concept of convoy system	SP(SA) SP(N&M)
2.	Tourism department may also inform all tour operators that tourist have to return back from middle strait to Port Blair as per convoy timing only in case of missing the convoy timing no one will be allowed to travel in the Jarawa area	SP(SA) SP(N&M)
