

On 05/01/2018 morning we walked along the sea shore (as it was low tide) up to Horbotala Chadda/Creek and Inspect the area were also no jarawa fellow members where found and we back to Badabalu (the base camp) after having lunch we suppose to proceed but we could only able to start our return journey to Collinpur at about 08.10 Pm from Badabalu Due to stuck up of our Engine Dinghy on the rocks because of maximum low tide.

We reached Collinpur Nallaha (Near AAJVS Field Office) at about 11.20pm On 05/01/2018. It is worth to mention here that some the photograph which with the help of cell phone was taken during conducting joint patrolling and enclosed here with for your kind information pls.

Yours Faith fully
