Sir,

That Sir, I was distributed the items as per the previous records/reference available at our Camp near the forest of Verekanda Pur. & /A after <sup>Tsunami</sup>.

After Tsunami the physical Condition of Ongees of Dugong Creek and South Bay was very bad, they were kept at RK. Pur School ground and at Ongee Tikri, #1 Bay respectively and Subsequently shifted to their own made Hut interior in the forest; V.R. and Badaraju, Ugalai approach to the Tehsildar & Commissioner (R.R). for ration item etc. As the Ongees are fully depend upon the ration, Hunting, fishing was not in practice due to the terror of Tsunami. Tehsildar & Commissioner (R.R) verbally directed to issue the ration items to the Ongees as per their need on demand. Due to frequent shifting of Ongees Camp they are wasting the ration & other items, and in each new camp they demand for a fresh rations & other item, Matter was also discussed with the officers of T.N. during their visit during that period.

I have not violated the prescribed scale and any other relevant rules belongs to our department & ONGEs. All the information, records and registers of above said issue related with the memo. is available with D/c. Office, The ONGEs were finally shifted to there old Settlement, i.e. D/crack. Sometime may. 06.

Submitted for kind int. and Consideration Plz.  
Yours faithfully.

SHC. Campbell Bay.  
G. Micobar.
