

Please Refer to the note at para 33/n above. We should place not only Commander Jeep but also Gypsy belonging to the AAJVS on duty in connection with the requirement of the research team. Further the Mahindra Pick-up Van should also be available whenever required for the survey work.

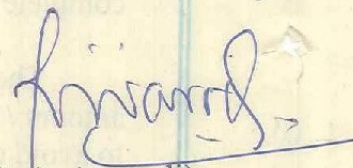

Refer to the note at para 35/n above. Please check the rate quoted by the tenderer, is it per Km or per hour ? Further the name of the tenderer should be recorded in the note side apart from indicating his Sl.No. in the Comparative Statement.

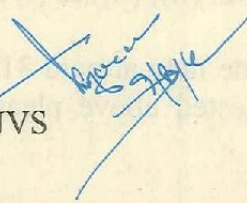

After perusing a sketchy / incomplete notes recorded from para 4/n to 23/n above, Shri K.C. Ghoshal, Executive Secretary, AAJVS, Shri A.L. Singh, Research Officer (TW), Shri Mohan, Accountant, AAJVS were called and asked them to scrutinize the tender documents carefully and put-up a proper note. They are expected to discharge their responsibility to due diligence and prudence especially in the financial matters. As such the file be resubmitted immediately.

The draft Supply Order / Job Order be put-up immediately. The Supply Order / Job Order should indicate the lowest rates quoted by the tenderers and accepted by AAJVS.

Further it would be necessary to provide life saving equipments like Buoys and Life Jackets in the motor dinghies. The Supply Order / Job Order should contain this condition also. In case the tenderers are unable to provide the life saving equipments (as it was not included in our tender notice), it would be desirable to obtain such equipments from Govt. Deptts. like DSS etc. and provide the same for the safety of research teams. This is essential keeping in view the sea conditions during the current monsoon. This matter was discussed with Executive Secretary, AAJVS also.

Resubmit the file immediately.
