

support be provided. As such, each composite groups require now two jeeps and two motor dinghies on regular basis. It was also decided that the Coordinator of the team be authorized to hire additional jeep/ dinghy whenever the need arises in the field.

In this connection, it is proposed that we may invite tenders well in advance from the local area jeep owners and Engine Dinghy owners at Tushnabad/Tirur, Baratang wandoor and Kadamtala so that the Engine Dinghy and jeep are available for the use of composite group members without any delay.

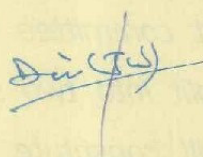

Subject to approval a draft tender notice is added for signature please.
