

No.11-26/AAJVS/TW/2002/Vol.I

Refer to the note at Para 105/N above. The documents at page 93 - 99/C are found to be not the list of non-consumable items. On the other hand it is the list of officials who are deployed in the survey of Jarawas.

There should be receipts from individual officials who have received the non-consumable items from AAJVS for the purpose of survey among the Jarawas. The letter proposed to be sent to each individual should be based on such receipts.

Further, the accounting of non-consumable items should be ensured i.e. the items purchased should tally with the receipts from individual officials plus the balance available in the stock.
