From Pre-page:

On the due date of opening tenders we had received altogether 28 quotations from S. Andaman and Middle Andaman area, which has been opened and placed at page 11/C onwards enclosed with a call deposit of Rs.500/- as security deposit. A comparative statement has been prepared for the perusal and signature of the members of the purchase committee of AAJVS at page 39 to 40/C.

As per the comparative statement, it is observed that only one tender has been received for hire of Jeep i.e. from Shri Abraham Balmoch @ Rs.33.95 per hour as running charges and Rs.9.95 as halting charges per hour. It can also be seen that from the comparative statement that the rates quoted by Shri Abraham Balmoch is quite reasonable when compared to the rates quoted for hire of Jeep at Tirur and Kadamtala area. Therefore, it is proposed that the rates quoted by Shri Abraham Balmoch may be accepted.

Further, out of the tenders received for hire of Engine Dinghy at Tirur area M/s Andaman Multipurpose Co-operative Ltd. Tushnabad had quoted the lowest @ Rs.58/- per hours as running charges, but the firm had not quoted the halting charges. Quoting of halting charges are necessary during the calculation of bill, hence we may accept the lowest rate quoted for halting charges @ Rs.25/- per hour for Tirur area by Shri Nil Kumar Mondal. Therefore, if the rates quoted by M/s Andaman Multipurpose Co-operative is accepted, their rates may be Rs.58/- per hour for running charges and Rs.25/- per hour for halting charges, for Tirur area.

Therefore it is proposed that the rates mentioned at para 15/ante may be accepted for hire of Engine Dinghy and Jeep for the 3<sup>rd</sup> phase of Jarawa study.
