

It is reported by the Medical
Suptt. G. A. Pant Hospital Post Blair
vide his ltr dt. 1.8.88 that the
Andamanian patient Shri Zivaki admitted
in the ortho ward consumed liquor on
21.6.88 and created a unpleasant scene
under the influence of liquor. Necessary
action may be taken to maintain the
discipline and sanctity of the
hospital. Submitted for perusal pls

8/8

Supply of alcohol and the
to the patient in the ward by outsiders
and the behaviour of the patient as a result
are to be checked by the hospital
authorities. It is not very clear about
the ~~ear~~ argument. The CEO is putting
that the ES. AA-815 is to initiate action
for keeping the discipline of the ward
when a tribal patient is involved in
such action. I have already advised
the patient to behave well. No action
is necessary now.
