

NOTE

Smti Borrow, Andamane lady was admitted in the G.B. Pant Hospital in T.B. Ward. She had symptom of blood in sputum.

^{yesterday}
~~Today~~ I visited her in the Hospital. She was found well and she told me that she feels better. I met the Medical Officer-in-Charge of the ward and discussed with him about her ~~sandk~~ condition. It was informed by the Medical Officer that her case was actually not of T.B. but of some long infection. He said that she has improved and will be fit for discharge in a weeks' time.

Submitted for information.
