So far the parents are concerned, the mother of the children (Smt Nee) is accompanying while her husband is not in a position to travel as ^{he} himself is sick. Probably the mother is sufficient for both the children to attend in the hospital besides the physician who is accompanying from the medical department. So far deputing a responsible person from the AAJVS, Mr. V^RU Menon, ES, AAJVS whom I find is ^{the only} responsible person but he cannot be spared. We have social workers who they do not know the language/ atmosphere of Madras city and deputing them to Madras shall not be of much use. However, we have an office of the APWD at Madras where sufficient number of Group 'C' staff are available. The A.E., APWD, Madras could be requested to spare one of the Clerks or J.E. to attend to the boarding and lodging side of the children as well as their mother whenever and wherever required. The A.E. could also be asked to receive the patients and the attendants on arrival at Madras, the date of arrival shall be intimated in due course on receipt of the information from DHS and also to take them to Egmore Hospital, as recommended by the DHS.
