To  
The Medical Superintendent ,  
G.B.Pant Hospital,  
Port Blair.

Madam,

The patient Mrs. Santi wife of Shri Looke of Strait Island was admitted in Labour Ward on 20.3.88 and discharged on 24.3.88.

She was admitted with the complaint of 8 M.A pain abdomen on and off and bleeding pv on and off. On admission and during stay in the hospital there was no bleeding pv. uterus was 32 wks. size and FM. good, Since she was anaemic she was given one unit of B+ve group blood.

She complaint of passing black colours motion during the period of admission and was seen by Surgeon for the same. Surgeon had advised treatment for internal piles.

Her general condition during the stay was good and she was discharged, when her health condition improved.

She was previously treated for threatened abortion and the patient has recovered.

Yours faithfully

Sd/-
