Dated: 13.6.88.

Mr. Y.R. Menon
Executive Secretary
Andaman and Nicobar Administration
Andaman Adim. Janjati Vikas Samiti
Port Blair.

Dear Dr. Menon,

Thank you very much for your letter dated 16th May, regarding the two daughters of Mr. Pijhe. The two girls had severe anemia. We did not take their blood for tests. I had advised them admission to the hospital. Actually they had already been admitted to the hospital in P. Blair on a previous occasion.

In my discussions with Dr. J.S. Nagra, Director General of Health Services, I had already told him about the two daughters and requested him to check the records of the hospital to determine the diagnosis. He promised to look into the matter and take necessary action regarding their treatment.

The interim report on our visit is ready and has been submitted to the Island Development Authority. I am obtaining more copies of that report to be sent to you and Mr. Alphonse for your information and necessary action.

I will also send a copy of the report to Dr. J.S. Nagra, Director General Health Services to keep him informed of the results of our analysis and also for him to take necessary action ^{on} and the suggestions we had made.

I received your letter regarding payment of the bill for use of the taxi. We will pay this amount. I am taking necessary action for payment of the amount to you.

Sample 2
The response to your letter has been delayed because for the last 3 weeks I have been ill with hepatitis. I have not yet rejoined duty but will do so in the next two weeks.

Es.
We deeply appreciate the help and personal attention given to us by you and Mr. Alphonse. I also expressed our appreciation for you and Mr. Alphonse's efforts in the report^{kg} submitted to the IDA, a copy of which will be sent to you within a week.

Yours sincerely,

Dr. I.C. Verma
