May also see before issue. One is even tempted to include a para in the letter requesting recall of Prof. Sehgal from these islands.

Quite frankly, if there has been no major fall out of this, then why not let matters rest? We all know Prof. Sehgal. He is a respectable person. I don't think that the intention was to make a file.

Although Prof. Sehgal's intentions may not be malevolent he has been doing this time and again, embarrassing the Administration with impunity. I feel the letter may go. Submitted for order.
