

10. Treatment given

→ Nil orally.
→ Sand bag by neck & Head
→ Bedrest (strict)
→ Treatment of Spinal Shock

↓
C. W. Feil. 2 (Dopamine)
↓
Came.

11. Present treatment schedule:

12. Reasons for referring the case to mainland.

I can do Spinal Surgery & decompression of the
Cord - but I don't have the region
Required O.T. Table for providing Skull
traction during Cervical Spine Surgery. Nor
do I have the required instruments. Open
quotation was given floated, instruments were
recommended but not it was not purchased
in 1995. Since then open quotation was made
twice including this year. Last year
Instruments O.T. Table could be purchased as
financial grant for orthopaedic dept was 2 lacs
whereas, OT table was cashy 2.8 lacs. Hence

13. To be referred by ship/Air: I had decided to by instruments.

14. Fit/Unfit for travel:

Medical attendant and one
Personal attendant if possible.

Fit to travel by air on dopamine
drip on Stretcher.
