Sub:- Supply of electricity during the night at
Strait Island - Reg.

....

Sir,

I am directed to refer to your letter No. 16-5/AAJVS/207 dated 6.6.2000 on the subject mentioned above and to say that according to the report received from the Executive Engineer(Rural) during the month between April and June, 2000 there was no interruption of power supply during the night at Strait Island. Moreover, the scheduled maintenance and repairs of the DG set is carried out during the scheduled shut-down period of power house.

I am further directed to say that during the IXth Five Year Plan there is a scheme namely "Establishment of 2x24 KW DG Power House at Strait Island" under which necessary provision is kept for purchase and installation of two sets of 24 KW capacity each which will not only meet the power requirement of the tribals but at the same time the duration of power supply will be increased.

Yours faithfully,

(Dashrath Singh)
Statistical Officer.
