Sub: Report of the position of the Composite Group as on
14/02/2002 - reg.

Sir,

I am hereby to submit the matter under the above cited subject that I visited the Tirur area and the RK Nallah area on 14/02/2002 in connection with the distribution of the Jerrycanes to the Composite Groups and in connection with the arrangement of their proper stay and study in the field. The following has been noted in the field that-

The Composite Group I :

- The Composite Group has departed for the field from the Community Hall, Tirur with intention to properly assess the field situation and the Jarawa location before the pitching of tents near the Jarawa camps.
- Some Jarawas of Tirur came to No.4 area from Jhaukona while some Jarawa girls who were staying at No.4 moved to tirur main area at or around 'Lavaitala'.

The Composite Group II :

- The team appointed a cook namely Shri.Gunasekharan R/o. Shri.R.Chennaiah R/o. Baratang w.e.f. 13/04/2002. Please find enclosed herewith a letter from Dr.Tulasidasan, Member, Composite Group in this regard please.
- Some of the members have their own torches which has been good enough for the team but they don't have the cells. For the use of GPS set they are in need of cells in adequate number.
