

I would like to clarify
- that Shrimati Leecho is not
to be employed in the hospital (80)
least of all in the TB centre.
Since this would lead to
further complications due to
infections that may be acquired
from the hospital.

The proposal was to keep
her in the Directorate so that (81)
her condition could be followed
up by Dr. Quackri, State TB
officer. Hence we proposed that
she be appointed as a person
under ARTS.

As regards medical
examination and fitness for
Govt service we are fully (82)
aware of the rules and under
the present circumstances and
her state of health ^{at} now,
she is likely to be fit for
service. Case discussed with STBO

If she goes back to
Shant Island and has a remission (83)
then the whole process will be
reversed.

U.O. No. 4016 dt-2-8-89
