

- 7 -

that the development in the Forestry Sector so far has been tardy mainly due to paucity of funds and peculiar institutional system under which Forestry Development Programmes have been funded. The Commission has recommended that in order to bring about an uninterrupted development in the Forestry Sector to meet our future requirements, it is necessary to change the present financial institutional arrangements have stood in the way of the Forestry Sector due to the rigid adherence to rules and procedures which do not permit management of forest as a commercial enterprise. The commission has therefore, recommended that unless and until a suitable institutional.
