PAT regulation only for Islanders?

Highest level of Hypocrisy regarding Jarawa Policy

Port Blair, Nov 21: It seems that the Andaman and Nicobar Administration has two sets of rules for public regarding Jarawa Policy. The Andaman and Nicobar Police, under the direction of Administration, takes no time to arrest innocent Islands in every minor case but the same Police department becomes helpless and incapables, when some foreigner violates PAT regulation. The Internet is full of objectionable pictures of Jarawa tribes.

Most of these pictures are clicked either by foreign photographers or published by foreign media. Adding to the mockery, some organizations support the cause of Jarawa by publishing objectionable photographs of Jarawa and the Police department remains helpless.

illegal. Still in this case the police neither filed any FIR against the photographer nor the media house. (link: <http://www.sunday-guardian.com/artbeat/the-jarawas-as-a-unchanging-pristine-tribe-thats-rubbish-n>) Even the case of Army Jawans shooting the most controversial Jarawa Dance has been kept in cold box. Had it been any innocent Islander the Police Department would have arrested them on the same day. Why this double standard?
