(iii) RC No. 263/DCM/2014

Allotment of 10 hectares of land at Laxmipur, Diglipur for installation of radar station along with accommodation to the personal of radar unit.

The Air Commodore applied for 10 hectares of land at Laxmipur, Diglipur. The Deputy Commissioner, N&M Andaman was of the view that the requirement of land placed for each station is on higher side. Considering the scarcity of revenue land, the Deputy Commissioner, N&M Andaman, restricted the requirement from 10 hectares to 3 hectares as 4 hectares of land has already been allotted for the radar station and the present requirement is for residential purpose.

The Committee recommended the proposal for allotment of 03 hectares of land at Laxmipur, Diglipur, as proposed by Deputy Commissioner, N&M Andaman, to Indian Air Force for residential purpose.

(iv) RC No. 262/DCM/2014

Allotment of 20 hectares of land at Rampur, Mayabunder for installation of radar unit with associated sub-system and accommodation for personal.

The Air Commodore applied for 20 hectares of land at Rampur, Mayabunder. The Deputy Commissioner, N&M Andaman restricted the requirement from 20 hectares to 10 hectares as the requirement of land placed for each station was on the higher side and considering the fact that very less revenue land is available with the District Administration and it will be difficult in future to spare land for any other important project and developmental oriented works.
