Due to bad
weather it is not
possible to proceed to
Spoke Island. Arrangements
for the study team
will be made.
Sir

It has been decided in the meeting held
at the Marine Hill guest house under the
chairmanship of Shri K.B. Sena that
during third phase of survey, the quality
of water at Lalongta and Spoke Island
will be worst due to heavy rains and
AAJVS will arrange mineral water to
the health and nutrition team as
very senior doctors and staff will be
working in hostile conditions.

The minimum life support
requirement if AAJVS can not
arrange for the study team, then
it will not be possible for the team
to go to field and work in the
most difficult situation which a
doctor sitting in a air-conditioned room
at port Blair can not visualise.

Please intimate if mineral water,
adequate transport etc are arrange at
Kadamtala in writing so that the
team can proceed to Kadamtala by
19/8/2002 early morning.

Yours faithfully,
