

(31)
In continuation to the Para No. 17/N - 29/N, it is further to mention here that the position and moment of the Jarawa has been observed as on 06/08/2002 from the field functionaries that most of the Jarawas are now living/staying at Spike Island and Badabalu (along with the western coast) and might be continued their stay for further 15-20 days as reported.

(32)
If it is so the members of the Composite Group has to go the above two areas and in such cases requirement of the mineral water might be needed as water supply even for the purpose of drinking are not available from any source.

(33)
We have got total 62 persons in all Composite Groups and the total estimated bottle of the mineral water may be needed as follows-

62 persons X 03 bottle per day X 30 days = 5580 X Rs.10/-

= **Rs. 55,800/-**

(34)
The supply of mineral water will be provided strictly according to the need and camping place as detailed above and as such administrative financial approval is requested.

(35)
As per Para 30/N it is further to mention here that a decision has been taken to supply mineral water to the members for drinking purpose keeping in view the current Monsoon vide item No.31(Xi) of the Minutes of the Expert Committee Meeting held on 17/07/2002 at RajNiwas placed opposite.
