

ASSESSMENT OF ANIMAL RESOURCES USED AS FOOD BY JARAWAS
Proforma for Data Collection
(Information of the Jarawas and observations in the field)

Wild Pig (*Sus scrofa andamanensis*):

- Frequency of consumption
- Quantity of utilization
- Frequency of hunting and numbers killed
- Numbers sighted per Hectare

Dugong (*Dugong dugon*)

- Frequency of consumption
- Quantity of utilization
- Frequency of hunting/numbers killed
- Frequency of sightings and numbers sighted

Monitor Lizard (*Varanus salvator andamanensis*)

- Frequency of consumption
- Quantity of consumption
- Frequency of hunting and number killed
- Numbers sighted per Hectare

Turtles

- Frequency of consumption
- Quantity of utilization – Meat: Eggs:
- Frequency of hunting and numbers killed
- Number of nesting beaches
- Number of nests and approximate number of eggs in each nest

Fish

- Frequency of consumption
- Quantity of consumption
- Frequency of hunting and number killed
- Preferred Fish (Common /scientific names if known)
- Availability of consumed fish in shallow waters (common/scientific names if known)

Abundant Common Few/occasional Rare

Crabs

- Frequency of consumption
- Quantity of consumption
- Frequency of hunting and number killed
- Preferred Crabs (Common names/scientific names if known)
- Availability of consumed crabs (common names if known)

Abundant Common Few/occasional Rare
