Dear Mr. Awardi,

This is to confirm that Dr. D. Chowdhury and Mr. B. K. Roy will be arriving in the Andaman Island on 03.12.2001 as planned and do the training for a day and then do the pilot testing and finalise the schedule and possibly joined group for the first 2-3 days when they initiate the survey. As you have said they need to stay there from 15.12.2001 but if possible I would like them to come back two or three days earlier because there was a very important meeting in Calcutta on street foods on 13.12.2001 and if at least one of them could come back it will be a great help. However I have asked them to speak with you when they arrive and Mr. B. K. Roy will inform you about it.

With warmest regards and I do hope the programme goes very well.

Indira Chakravarty
