

in itself is safe, however,
if it is not stored properly or
if it gets wet in transportation
and distribution - will get
contaminated by fungus or
infested with insects. This
aspect should be kept in mind
while distributing puffal rice
to the Jarawas - by contact
parties.

May please peruse notes above from
para 156/N onwards. It is regarding the organis-
ing the contact expedition to the Sentinelese
and the Jarawas. The tentative programme sugges-
ted at para 156/N may kindly be approved.
