

The Andaman Adim Janjati Vikas Samiti has been arranging contact tours to the Jarawas and Sentinel areas during the past over 10 - 15 years. The outcome of such tours is not precisely available. It is understood that the said Samiti has been submitting regular reports to this Directorate/Administration on the subject matter. Besides the Anthropological Survey of India is also said to have made a number of trips and reports. However, no such report is reportedly available in this Directorate.

Research Officer may please collect all such reports and work out a brief, as discussed in person. Copies of such reports if not available in our office ~~ensure~~ the same could be had from the Executive Secretary. We can make out xerox copies of all those reports for preparation of the brief.
