**Sub:- Re-construction of jetty at Strait Island -reg.**

Sir,

It is to inform that, the re-construction of Jetty at Strait Island has already been envisaged in the Annual Plan of Port Management Board for the year 2012-13. Understanding the urgent nature of work, ALHW has already taken up the work and completed the sub soil investigation of the area and environmental clearance has been also taken up. However, an estimate based on the plan and layout, duly approved by the PMB (on 9.5.2012), from Navigational points of view, is under preparation and will be submitted shortly.

It is to further inform that, all out effort is being taken to start the construction works at the earliest.

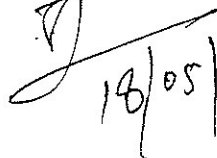

This is for your kind information and further necessary action please.

Thanking you for your kind co-operation please.

Yours faithfully.

  
Executive Engineer, ALHW
