

the dead body was buried with their own ritual. After a while I got the news that a Jarawa child has health problem at Uadkhala chadda. I immediately render to that place and in-situ treatment given to some sick Jarawas. I brought a Jarawa patient (child of Todora) from Uadkhala chadda (2km) to PHC Tushnabad for further treatment. After my coming to PHC T/Bad I inform Tribal Welfare Officer, Tirur about the death case.
