

9. **Weeds and Bush Clearance from the Plantation as well as settlement Area:-**

The Coconut Plantation area is fully covered with weeds and bushes which needs to be cleared for developing the plantation and for collection of nuts as well as to avoid danger of reptiles like snakes and centipedes to the tribal inhabitants. The Agriculture Department may take up the work under TSP engaging the Great Andamanese as labourers for the work.

10. **Anganwadi of Social Welfare Department:-**

An Anganwadi of Social Welfare Department is functioning at Strait Island. At present 6 children are attending the same and one of the Great Andamanese Tribal lady is engaged as Anganwadi worker. Nutritional food supplement is being supplied for the Anganwadi children by the Directorate of Social Welfare but the children appeared to be mal-nourished. It was decided that the concerned CDPO and Extension Officer of the Directorate of Social Welfare shall pay periodical visit to Strait Island for inspection of Anganwadi and to ensure proper distribution of food supplement to the children and also to guide the Anganwadi worker suitably, if need be.

11. **Removal of Trees Standing in Dangerous Position:-**

One huge dead tree and six live trees are standing over the buildings of Primary School, Guest House and Sub-Center of Health Department at Strait Island in a dangerous position. If not removed these trees may fall at any time on these buildings there by causing serious damage to the building as well as to individuals. The Forest Department may ensure cutting/removal of these trees at the earliest possible.
