The AAJVS procures such tools and implements like Spade, hammer, triangular files, spade, Dugchi (Big Size Utensil for boiling their food), Axe etc. for supply to Jarawas as and when they ask for. It is pertinent to mention that the demands of Jarawas are 'need based' and not 'greed based'. As such they don't collect these items if we give them, but when they need it they ask for the same and it has to be given to them forthwith. As such AAJVS procures these items on annual basis and keeps in stock at Port Blair Office as well as our Kadamtala Office for supply to Jarawas as and when asked for. Proper stock register is maintained at Head Office as well as Field Office.
